

TRUCK DRIVER IS CHARGED IN FATAL MISHAP

Edward H. Krug, 33, Hanover, mail truck driver, was charged Wednesday afternoon by state police with involuntary manslaughter in the death December 16 of Ervin Lee Harbold, York Springs R. 1, near Hampton.

Following arraignment of Krug before Justice of the Peace John H. Baschore, he was released on \$1,000 bail for a hearing before the justice at 10 o'clock next Thursday morning.

The charge grew out of an accident between two trucks and a car on the York Springs-Hampton Rd. State police said that Harbold was driving toward Hampton. Two trucks were headed toward York Springs. Krug, operating a tractor-trailer carrying mail, was attempting to pass a tractor-trailer operated by Edward L. Dull, 29, Cleveland, O. A farmer nearby was burning off a field and smoke obscured the highway at two places, police said.

Dies Of Injuries
When the two vehicles emerged from the smoke into a clearing, while in the act of passing, Harbold headed toward the Krug truck. Krug attempted to cut back onto the right side of the highway and the two tractor-trailers and car collided. Harbold died later in the Hanover hospital of injuries. Police and District Attorney Daniel E. Teeter, following their investigation, decided to proceed with the criminal charge against Krug.

C. LAMBERSON WILL RECEIVE JAYCEE AWARD

Carlson C. Lamberson, 35, New Oxford R. 1, was announced today as winner of the "Outstanding Young Farmer" award of the Junior Chamber of Commerce.

Carl Kessel, chairman of the Jaycee committee in charge, said Lamberson was selected for the honor out of a number of nominees among young farmers of the county. Honorable mention in the contest went to John W. Schwartz, Littlestown R. 1, and John F. Peters, Gardners R. D. Kessel and members of his committee, Paul Reaver and Paul MacDonald, said Lamberson has increased his farming operation from 38 acres in 1943 when he took over the home farm after his father's death to 635 acres. Of his present five-farm operation 526 acres of land are owned, 109 rented for cash. There are 455 acres in crops and 45 are used for grazing.

In 1943 he had a one-fourth interest in the 38-acre farm, 150 chickens and five head of dairy cattle, four acres of corn producing about 35 bushels per acre, five acres of wheat producing 15 bushels per acre and seven acres of hay producing an average of a ton an acre. His hens were laying about 160 eggs a year and his dairy cattle averaging 5,000 pounds of milk per cow per year. Now he has 170 acres of corn producing an average of 60 bushels per acre, 37 acres of wheat producing 40 bushels per acre, 150 acres of hay producing 1.7

Floods, Snow And Cold Lash Eastern Half Of Nation Dealing Out Misery To Millions; Thousands Are Made Homeless In 4 States

By THE ASSOCIATED PRESS
River had flooded, smashing through dikes in the downtown district. Winter's most destructive and bitter elements — floods, snow storms and cold — dealt misery and suffering to millions across the eastern half of the nation today.

Thousands were homeless in floods in Ohio, Kentucky, Pennsylvania and Indiana. Scores of drivers and streams fed by heavy rains and snow, overflowed. Flash floods harassed a dozen upstate New York communities, forcing many families to evacuate their homes. Damage was estimated in the millions of dollars.

45 Lives
Deaths related to the violent weather and floods mounted. The latest count was 45.

States of emergency were declared in many Ohio cities and in at least two New York communities. At Mount Vernon, in central Ohio, about a third of the city's 15,000 residents were taken from their homes after the flooding tons of snow.

Hospital personnel reported that Burgard had suffered a deep cut of the head and skull fracture. He was rushed to the hospital by Dr. Leon Roos, East Berlin, shortly after the accident Monday and his condition then was listed as serious.

The equipment shop, operated by M. B. Burgard, is located along the East Berlin-York highway. Burgard was working alone in the shop at the time of the accident.

21 SCOUT UNITS WILL RECEIVE HONORPLAQUES

Twenty-one Scout units in the Black Walnut District will receive honor plaques for increasing membership during the period from September through December, 1958. Cites Training Course

Maddox urged 100 per cent attendance by the commissioners at a training course to be held February 28 and March 1 at Camp Tuckahoe. He also asked all commissioners to urge their unit leaders, assistants and committee members to attend the University of Scouting at Eichelberger High School, Hanover, on February 17 and 24 and March 3, 10 and 17.

Maddox said both basic and advanced courses will be given in Cubbing, Scouting and Exploring programs.

Scout Executive Stanley C. Rogers presented the commissioners with calendars of district and council events which the commissioners are to present to each unit leader and committee members.

1958 Was Best Year

Maddox said, "1958 was the best year in the history of the district. Gains were made in every field of scouting. The only way we can beat 1958's record in 1959 is by every single commissioner and Scout leader working to do a better job."

A report was presented on a meeting Tuesday night at York attended by five men from the Black Walnut District. Each district's goal for the year was broken into four parts, with a goal set for each quarter of the year.

SS FOR COUNTY OFFICIALS WILL BEGIN WITH '59

Clerks of the county commissioners today began the task of digging out the financial records for approximately 100 county officials whose names will be added to the Social Security rolls.

Assessors and court attendants at a meeting in the court house Wednesday night voted in favor of adopting Social Security. Four meetings were held, two last week for the tax collectors and jury commissioners; two this week for the assessors and court attendants at which the various officials voted their preference for or against inclusion in Social Security. With the majority of all groups favoring the project, the commissioners will begin with the records of 1956 for payments made to the officials.

From the payments will be determined the amount the county will be required to pay for each official and the amount each official will be required to pay as his share of the Social Security payments. The amounts will be forwarded through the state to the federal Social Security headquarters.

Future payments will be deducted before the checks are issued. It was decided to make payments on a quarterly basis in order to simplify the deductions.

Swollen Streams Hamper Traffic

Wednesday evening rains and the accompanying thaw sent runoff water rushing into county streams. Rising waters flooded some areas covering roads and, in some cases, leaving behind large cakes of ice. A few washouts occurred on shoulders of state highways but none of the washout damage was such as to interrupt traffic seriously.

State highway crews were called out Wednesday evening to remove obstructing trees, ice and mud. Ice was washed onto Route 234 west of Arendtsville and on Route 61022 between Route 15 and Table Rock. A number of township roads along streams were blocked by ice.

Evening traffic on Route 15 at Clear Spring, north of the county line, was slowed when highway workers restricted vehicles to a single lane because of water flooding over the pavement.

Road crews were at work today repairing washout damage on an unimproved state road, Route 10157, near New Oxford, and on shoulders of Route 34 in the Idaville area. Some minor wash damage was also reported along Route 15.

SAYS READING ON INCREASE IN ADAMS COUNTY

"Whether they are reading for information or for pleasure, the tendency of Adams Countians is toward more reading for adults as well as children."

That statement appears in the annual report of Mrs. Mary S. Wilson, librarian, to be presented at the annual meeting of the Adams County Free Library Association this evening at 8 o'clock in the main library on E. High St. Mrs. Wilson quotes figures to back up her statement.

Loans Up 10,000

The number of books borrowed in 1958 increased by more than 10,000 over the total for 1957 at the main library, an increase of 19 per cent. Total loans through the library came to over 99,000 in 1958 in spite of a change in counting school book loans which greatly reduces the circulation totals.

Mrs. Wilson explains it this way: "A new simplified system of counting circulation was inaugurated for the bookmobile trips to the schools as the only means of keeping up with an ever-increasing school enrollment. Instead of counting the names of each student who read a book left at a classroom collection, each book left at a school was counted as a single loan or circulation. The time saved by the simplification can be used to maintain readers' advisory service to the teacher and the pupil."

To Elect 4 Directors

President C. P. Keeler, Mrs. Wilson and other library officials will speak on various phases of the library's problems, plans for the future and continuation and expansion of services.

This evening's meeting is open to the public and there will be an opportunity for questions from members in the discussion of the library's present situation and its future.

Annual reports will be presented at the annual business meeting and four positions on the association's board of directors will be filled.

GETTYSBURG PHONE RATES ARE INCREASED

The Gettysburg telephone exchange, with 4,034 subscribers, is included along with New Oxford, Hanover, Carlisle, Chambersburg, Fayetteville, Mr. Holly Springs and 29 other exchanges in which rate increases proposed by the United Telephone Co. will go into effect immediately, according to a Public Utility Commission ruling Tuesday.

Proposed rate increases for Biglerville, Blue Ridge Summit, Fairfield, Littlestown, York Springs and several others were suspended pending public hearings through which PUC aims to determine if the increases would be discriminatory.

Protests were received by PUC from Waynesboro and Beech Creek exchanges and these are also among those in which increases are suspended.

The PUC suspension applied generally to those exchanges where service is through common battery or magneto operated systems. The increases were allowed in those exchanges where dial service has been established or is scheduled to be in operation this year. Dial service for local calls in Gettysburg will be in effect in December, according to company plans. John E. Caldwell, local district manager, said today.

United Sought \$805,000

United had asked for rate boosts which would have increased annual revenue by \$805,000 in all of its exchanges in Adams, Bedford, Blair, Bucks, Centre, Clinton, Cumberland, Dauphin, Franklin, Fulton, Huntingdon, Juniata, Mifflin, Perry, Somerset and York Counties.

A preliminary estimate made by the company indicates that about \$30,000 of the proposed increase, affecting 32,160 subscribers, will be delayed by the suspension order. The boosts will be delayed in 28 of the company's 64 exchanges where conversion to dial will not be completed before 1960.

The increases made effective apply to 47,126 subscribers in 36 exchanges.

Two Dissenters

The PUC decision approving the increases was not unanimous. Commissioners P. Stephen Stahl-necker and Joseph Sharfins, both of Philadelphia, favored suspension of the entire boost.

United, which made a \$392,000 rate increase August 1, 1956, said it spent \$6,400,000 in recent years for construction and plant improvements and gained 25,000 telephones.

The increases made effective apply in four groups of exchanges, the rates being in accordance with the size of the exchanges.

Lowest Rate \$4.20

For Gettysburg, New Oxford, Hanover, Carlisle, Chambersburg, Fayetteville and Mt. Holly Springs, along with six other exchanges, single line residence rates will go from \$4.70 to \$5.60 per month; two-party, \$4.10 to \$4.90; four and multi-party, \$3.50 to \$4.20; single line business, \$7.75 to \$9.25; two-party, \$6.75 to \$8, and four and multi-party, \$5.75 to \$6.75.

For Zora and nine other exchanges single line residence rates will go from \$4.30 to \$5.20; two-party, \$3.70 to \$4.50; four and multi-party, \$3.10 to \$3.60; single business, \$6.75 to \$8.25; two-party, \$5.75 to \$7, and four and multi-party, \$4.75 to \$5.75.

Seven exchanges get single line residence boosts from \$4.05 to \$4.95 and five get boosts from \$4.45 to \$5.35. Rates for the other services increase in proportion.

The proposed increases which United sought would have boosted monthly local service rates for a total of \$767,000 and service connection and directory listing charges, \$18,000. The effect of the partial suspension by PUC will be determined only by a more detailed analysis by United, Caldwell said.

Locally the new rates will go into effect February 15. The increases, approved as of Tuesday, apply to the first full month's billing in each exchange. Gettysburg subscribers are billed for rental the 15th of each month for a period one month in advance.

POLIO MOTHER, TEACHER GETS M.O.D. AWARD

By DOROTHY ROE
Associated Press Women's Editor

NEW YORK (AP) — "What at first seems disaster can be a blessing in disguise," says the new March of Dimes Mother of the Year.

This is the philosophy of gay, pretty Virginia Connors, of Cranford, N.J., 35-year-old mother of three, who runs her own household and holds down a teaching job for the Westfield, N.J., public schools, all from a wheelchair.

Mrs. Connors received the 1958 award at a luncheon today in recognition of her courage and her "independence in rearing maximum self-sufficiency" after a bout with crippling polio and long months in an iron lung.

Stricken In 1955

She is the wife of John B. Connors, sales representative for a Kearney, N.J., paint company. She has two sons, John, 10, and Billy, 8, and a 4-year-old daughter, Mary. The girl was just a baby when Mrs. Connors was stricken with polio and complete paralysis in September 1955, just as she was preparing to return to her teaching job. She was hospitalized for almost a year in an iron lung, much of the time, and her family carried on.

"I never dreamed that John could manage the things he did during that time," says Mrs. Connors. "Of course the whole family rallied round—his and mine—and many friends came to the rescue. But the big burden was on him, and for that year he held down his own job, did mine at home, took care of the children and helped me to find my way back to life and activity. I could never have done it without his help and love."

Queen Elizabeth Will Visit Yukon

OTTAWA (AP) — Queen Elizabeth II will see more of Canada this summer than any sovereign ever has—15,000 miles from Newfoundland to the Yukon.

The Canadian government today announced the itinerary for the royal tour by the Queen and Prince Philip, who arrive June 12 to visit until Aug. 1.

The schedule listed only one stop in the United States—Chicago on July 6 for the international fair and exposition there. The party will sail down Lake Michigan aboard the royal yacht Britannia.

High point of the trip will be the dedication of the St. Lawrence Seaway on June 27. The initial itinerary did not say whether the ceremonies will take place at Montreal, or Cornwall, Ont., or both. A detailed schedule will be announced later.

SIX CHILDREN DIE IN FIRE ON TUESDAY

ASHLAND, Maine (AP) — Six children died early Tuesday in one of Maine's worst fire tragedies. Four other members of Luther Tripp's family and two boarders escaped a flash fire that swiftly destroyed their rural home. Two parents were injured in heroic rescue attempts.

The dead: Edna, 15; Edna, 12; Jeanne, 9; Alfred, 4; Barbara, 2; and Carolyn Tripp, 2. Tripp, a 35-year-old lumber mill worker, and his 34-year-old wife, Mrs. Tripp, suffered severe burns. Mrs. Tripp also lost a lot of blood from a gash on one leg.

Rebecca, their 8-month-old daughter, was burned and suffered smoke inhalation. Also burned after two attempts to rescue some of the children, was Stanley Hickey, 20, Mrs. Tripp's half brother.

Luther Jr., 10, and boarder Byron Cox, 24, were unharmed. The survivors escaped by going

ARGENTINA'S STRIKE BROKEN

BUENOS AIRES, Argentina (AP) — The government's order drafting transport workers into the army appeared Tuesday to have broken the backbone of a nation-wide strike against President Arturo Frondizi's austerity program.

Buses and trolley cars began rolling in Buenos Aires again as disgruntled drivers, motormen and many other strikers went back to work under the eye of security forces.

Railway and subway workers already were under mobilization orders from a previous strike and these systems were operating normally.

The government, in a previous order, had threatened to court-martial Buenos Aires transport strikers who did not get back on the job.

The nationwide walkout started Monday under the leadership of Peronista and Communist unions.

MIKOYAN OFF FOR MOSCOW

WASHINGTON (AP) — Soviet Dep. Premier Anastas I. Mikoyan left for Moscow Tuesday.

Before boarding a train for New York, where he will take a plane, Mikoyan told reporters:

"Please convey to the population of Washington and to all the people I met in the United States my gratitude for their very warm welcome and hospitality and their desire for peace and friendship with the Soviet Union. And when I arrive in my country I will convey to high people all the best wishes and the desire for peace of the American people."

He's Disappointed

Mikoyan had a private car on a train, directly behind the engine. He boarded it during a steady rain which came with the first warm day since he arrived here 17 days ago.

Mikoyan evidently was disappointed that he could not budge Eisenhower administration leaders from their restrictions on Soviet trade and their policy of standing firm against Soviet pressures over Berlin. He charged that the cold war is still on in the State Department.

Real name of Buffalo Bill, who died in 1917, was William Frederick Cody.

Cat Wobbles Out Of Van; She's Lost

SECAUCUS, N.J. (AP) — Anybody lose an orange-eyed cat sometime around Dec. 29?

It could have been Los Angeles or San Francisco or Phoenix or Fort Worth or Elizabeth City, N.C., or Middleburg, Va.

The cat wobbled out of Ed Baskerville's big van here Friday when the driver opened up the back of his truck for the first time since Dec. 29.

Baskerville, 36, had packed the van in Los Angeles.

Says Funerals' Cost Must Rise

NEW ORLEANS, La. (AP) — The Order of the Golden Rules funeral directors national convention was told Monday by Nelson Hooper of Boston, Mass., that the national average of \$62 for a funeral must be increased if the business is to remain on sound terms.

He told the delegates from United States and Canada: "Ten years ago funeral directors realized a 16 per cent profit on a \$500-\$700 family unit sale, but today that profit has been cut to 12 per cent or less."

CUBAN PRISON IS VISITED BY U. S. NEWSMEN

HAVANA, Cuba (AP)—Jammed into a prison normally housing 150 inmates are 561 followers of ex-dictator Fulgencio Batista awaiting trial on "war criminal" charges.

Some probably will go free. Others will die before Fidel Castro's firing squads.

The prison is inside La Cabana Fortress on a hill overlooking Havana, not far from historic Morro Castle.

The prisoners — Batista police, military men and informers — are housed in large cells with interiors like Quonset huts. Armed guards patrol the 20-foot walls.

Escorted by two unarmed guards, our party of U.S. newsmen was given an unhindered visit to the cells.

The prisoners were reluctant to talk.

Finally one young prisoner said he would speak English "because what I say now the guards may take back to the prison director."

The English-speaking prisoner identified himself as Evelio Gil, 23, Havana-born military college cadet who joined Batista's police two years ago.

"The only crime I committed was to arrest some rebels," he said. "I struck or hurt no one." Another prisoner, former policeman Hector Figueroa, 29, claimed all he had done was "to arrest those who were putting bombs in theaters and other public places."

"Those arrested had court hearings, even defense counsel," Figueroa said. "On the other hand, the rebel tribunals are all made up of rebels. This is Russian-type justice."

TRUCK RAMS HOUSE AT FOOT OF STEEP HILL

PITTSBURGH (AP)—A tractor-trailer ran out of control down a steep hill Wednesday night and a house was narrowly escaped injury but was damaged by a wooden frame home on the North Side.

James Marsa, 35, of Philadelphia, suffered a fractured right leg as he leaped from the cab of his rig just before it plowed into the three-story structure.

Jacob Kuss, 79, resident of a first floor apartment in the house, narrowly escaped injury but was detained at Allegheny General Hospital because of his age. Marsa was admitted to the same hospital.

Occupants of other apartments in the building were not hurt.

Brakes Failed

Marsa, employed by the Philadelphia-Pittsburgh Carrier Co., said he lost his way into downtown Pittsburgh and that his brakes failed as he descended Hill St. shortly after 10 p.m.

The tractor and nearly a third of the trailer penetrated into Kuss' apartment. Two heavy-duty tow trucks were needed to extricate it.

The accident caused severe structural damage to the house and left the first floor a shambles of plaster and splintered wood.

Breaks Gas Line

A natural gas line was ruptured but utility workers were able to seal off the break and prevent a fire.

Mr. and Mrs. Steve Platt, occupants of a second floor apartment, said they "heard a crash that sounded like an explosion, and the floor seemed to slide out from under us."

Rudolph Kocian, owner of the building, was in his third floor apartment at the time.

Couple Observes 70th Anniversary

Mr. and Mrs. Frederick C. Zinn, Hanover, are celebrating their 70th wedding anniversary today. They were married Jan. 22, 1889, by the late Rev. H. C. Shindle, pastor of St. Paul's (The Pines) Lutheran Church, New Chester at the bride's home.

Zinn, a son of the late John M. and Caroline Kurtz Zinn, Penn Township, and his wife, the former Jennie Pottoff, daughter of the late Isaac and Mary Swope Pottoff, New Chester, met at Sharrer's mill, near New Chester, where Zinn was employed as a miller. Zinn celebrated his 90th birthday Nov. 30 and Mrs. Zinn was 93 on July 12.

After their marriage Zinn was employed 45 years as a glove cutter at the Hanover Glove factory. His wife taught a class in St. Matthew's Lutheran Sunday School about 50 years. Both are still active and in good health.

They have a daughter, Miss Mary Zinn, at home, who retired as art instructor in the Hanover schools in 1957 after teaching 41 years. She served in the Hanover schools 36 years. Miss Carrie Pottoff, 92, a sister of Mrs. Zinn, resides with the couple.

Correct Figures On Thompson Estate

Incorrect figures were given Wednesday in the report of the filing of the G. R. Thompson will at the court house. Papers on file there show that the properties owned by Mr. Thompson at 22 Carlisle St. and 333 York St. have been estimated to be worth a total of \$37,500 and that bank stock and other personal property he owned is estimated to be worth \$20,000. Appraisements will be made later.

While Mrs. Thompson is given the Carlisle St. apartment house and the use of the grandfather clock for her lifetime, the bulk of the estate is to be divided in equal shares among these children: Blanche A. Hanlon, Gerald W. Daley, Mrs. Stanley S. Harner, Wilmer Dutterer, George E. Hornberger, Dale W. Starry and Kenneth K. Kroh. Mrs. Hall announced that flyers will be sent home with the children requesting the donation of cooked chicken, off the bones, by Monday or Tuesday of next week.

Make Suggestions

Prior to the program panel, Darlene Dehoff, a jointure student, entertained with two piano solos, "Valse Trieste" and "Gypsy Sweetheart." Mrs. William W. Seibert, program chairman, was moderator for the symposium and in her introduction to the theme "Training for Leisure Time" said: "The function of leisure is recreation and refreshment of one's strength and spirit after work, a time for doing something useful; by training young people, it is possible to have them substitute habits of harmless amusement for questionable amusements, even to teach them to use their leisure time in a way that contributes to human betterment."

LaRue C. Epler of the jointure faculty, discussed "Music Appreciation," noting that many people have the mistaken idea that the children in school should learn music for performances whereas it is the aim of the school to teach music appreciation and he suggested the correlating of music with other subjects in the curriculum.

Mrs. Carl H. Baumgardner discussed "Social Diversions," with the suggestion that people need to get away, to have hobbies, or to help in the church; to do something different from the usual routine in a social way which will bring them in contact with other people.

Plan Founders' Day

Donald Trimmer discussed "Literature and Dramatics," recommending reading and more reading, for pleasure, for learning, for visiting distant lands and for all the other enjoyments one can obtain through this leisure medium.

Wilbur J. Gobrecht discussed "Sports," stating that this form of activity plays an important part in the lives of nine out of ten people, at some time in their lives, and when participation develops in youth, interest continues throughout life. All members of the panel were chosen from the high school faculty.

A Founders' Day program will be presented at the next meeting of the PTA on Tuesday, February 17. Kenneth K. Kroh, chairman of the program committee, announced that the guest speaker for the occasion will be Mrs. R. C. Harbaugh, past president of the local PTA and presently vice president of the Central District of the Pennsylvania Congress of Parents and Teachers. The Rev. Glenn Flinchbaugh, pastor of Redeemer's United Church of Christ, and a member of the executive board of the PTA, will give a briefing on Founders' Day and there will be a question on which programs during the year most appealed to patrons. Hostesses for the February session will be Mrs. R. Edward Newman, Mrs. Edward B. Geibman, Mrs. Ray T. Harner and Mrs. Leo Kuhn.

The attendance award for the Tuesday meeting went to the First grade, taught by Mrs. Naomi C. Schwartz. The award is a cash prize. At the conclusion of the business, refreshments were served by Mrs. Dale W. Starry, Mrs. John Gentzler, Mrs. Denton Barnhart and Mrs. John D. Basehoar, assisting Mrs. Fred W. King, standing hostess committee chairman.

I seek those I love the best . . . every step affords me pleasure . . . though I'm weary as can be . . . for in not too many minutes . . . happiness will welcome me . . . every night I tread the same road . . . still somehow it's always new . . . mellow things hold untold beauty . . . that is, to a lover's view . . . I thank God that I am able . . . in the morn to make my way . . . but I'm more than truly grateful . . . at the closing of the day . . . nothing else can quite compare with . . . tender feelings in my heart . . . when the evening shadows lengthen . . . and I make my homeward start.

DISCUSSION
ON LEISURE

The Littlestown Jointure Parent-Teacher Association held its January meeting in the general purpose room of the Rolling Acres Elementary School on Tuesday evening. Kenneth K. Kroh, of the shrubbery committee, reported that the work of replacing shrubbery at Rolling Acres School has been completed and the bill paid, and the unit decided that there will be more future replacements due to the fact that one of the pieces just replaced has already been damaged by an unknown careless driver. President Breighner gave a report on the progress being made by the committee working on the possibility of having a light placed at the railroad crossing on the Hanover Rd., near town. It was voted to accept the offer of Carl F. Hermann, manager of the Towne Theater, to sponsor a movie for the benefit of the Band Uniform Fund, on a date to be selected. TRUCK RAMS HOUSE AT FOOT OF STEEP HILL

PITTSBURGH (AP)—A tractor-trailer ran out of control down a steep hill Wednesday night and a house was blasted into the air by the impact of a giant arrow into the front of a wooden frame home on the North Side.

James Marsa, 35, of Philadelphia, suffered a fractured right leg as he leaped from the cab of his rig just before it plowed into the "three-story structure."

Jacob Kuss, 73, resident of a first floor apartment in the house, narrowly escaped injury but was detained at Allegheny General Hospital because of his age. Marsa was admitted to the same hospital.

Occupants of other apartments in the building were not hurt.

Brakes Failed

Marsa, employed by the Philadelphia-Pittsburgh Carrier Co., said he lost his way into downtown Pittsburgh and that his brakes failed as he descended Hill St. shortly after 10 p.m.

The tractor and nearly a third of the trailer penetrated into Kuss' apartment. Two heavy-duty tow trucks were needed to extricate it.

The accident caused severe structural damage to the house and left the first floor a shambles of plaster and splintered wood.

Breaks Gas Line

A natural gas line was ruptured but utility workers were able to seal off the break and prevent a fire.

Mr. and Mrs. Steve Platt, occupants of a second floor apartment, said they "heard a crash that sounded like an explosion, and the floor seemed to slide out from under us."

Rudolph Kocian, owner of the building, was in his third floor apartment at the time.

Miller Speaks To Taneytown Kiwanis

"We must be great enough to be small enough to be used," Kiwanis Lt. Gov. Leo Miller, Harrisburg, told members of the Taneytown Kiwanis Club at a recent meeting. "It is easy to be enthusiastic at the outset of a new year but it is difficult in a world of turmoil to maintain our enthusiasm. Kiwanis is great only because of the good works of individual clubs. Club achievements are written by deeds of individual members. Each member must be aware of his own responsibility to the club and his community," he said.

Miller and Mrs. Miller were guests at the meeting. He congratulated the club on its achievement of the past year and presented a past president's pin to Ned Musser, retiring president. He charged the new board, George Shovers, Harry Mohney, Robert Polley, Felix Westline, Charles Gartrell and Elwood Baumgardner, with their responsibilities.

Out Of The Past

TWENTY YEARS AGO

Severe Gale Sweeps Gettysburg, County; Variety Of Damage: Considerable damage was reported in Gettysburg and Adams county Sunday as this section felt the force of the gale that swept North Atlantic states. The wind reached a velocity in excess of fifty miles an hour.

Electric and telephone lines were blown down and broken in several sections of the county, leaving at least two county communities without electric current for hours and many sections without telephone service. Extra crews of workmen replaced scores of poles and restrung miles of wire.

Pedestrians and motorists on Baltimore street had narrow escapes from serious injury when the upper section of a double chimney at the front of the Deatrick Brothers funeral home collapsed and sent a shower of bricks and mortar over the pavement and the eastern section of the street.

Telephone and electric poles blocked several main highways north of here and at the former Robert J. Major farm, two miles north of town along the Harrisburg road, a large machine shed was blown across the road.

C. P. Keefer Again Heads Contest Unit: C. P. Keefer, supervising principal of the New Oxford public schools, has been re-appointed director of the speech and music contests in Adams county for this year, according to an announcement today by the University of Pittsburgh which sponsors the scholastic competition each year.

Board Selects Dr. C. H. Johnson As Pathologist: Upon the recommendation of the medical staff of the Warner hospital, the board of directors in a special meeting at the Nurses' home, Friday evening, elected Dr. C. H. Johnson, Chambersburg street, as acting pathologist at the hospital.

That action was taken after the board had accepted the resignation of Dr. Henry Stewart, who will continue as a member of the staff and as staff secretary. Doctor Stewart has been a member of the staff since the hospital opened nearly 17 years ago. For the first five years he assisted with surgery and then devoted his entire time to laboratory work.

Market Group Retains Head: Officers were re-elected at the annual meeting of the Adams County Market Growers association Monday evening at the Arendtsville fire engine house with President D. A. Peters, Gardeners, presiding.

At the same session it was decided to discontinue Tuesday morning sessions at the Farmers Market house here during the winter months.

Mr. Peters was re-elected president and these other officers were re-named for one-year terms: Vice president, Edwin Bushey, Biglerville R. D.; secretary, A. D. Sheely, and treasurer, Emory Sheely, Arendtsville.

Mercury Drops To Five Above: The season's and the year's lowest official temperature was recorded here early Friday morning when the mercury dropped to five degrees above zero on the instruments of Dr. Henry Stewart, official weather observer in Gettysburg. Unofficial readings as low as 10 degrees below zero were reported in Gettysburg and at a number of points near here.

Countians Jam Special Train To Harrisburg For Inaugural: More than 600 Adams county residents rode a special Reading train to Harrisburg this morning to witness the inauguration of Governor Arthur H. James at noon and to participate in the parade and celebration that followed.

Icy highways and the prospect of heavy traffic congestion in and about Harrisburg because of the double attraction of the inauguration and the state farm show swelled the number of train riders above the more than 400 who

Today's Talk

MENTAL UNEMPLOYMENT

I recently came across a quotation by Jackie Gleason in Look magazine that set me thinking. He said: "The whole reason for juvenile delinquency is mental unemployment." The useful people in this world employ ideas, truths, and unusual knowledge. They are happy when they are given the opportunity to store their brains with things that matter, and that they can use to good purposes.

People go wrong when they walk around with empty minds. They are the ones who help to fill our jails, and who cause trouble. Mental unemployment becomes a disease with them. They do foolish, and sometimes illegal things.

One of God's greatest gifts is the wonderful mind He has bequeathed to us. When fully furnished it becomes a blessing to us, and to all who know and love us. Each one of us can fill this mind of ours as we choose, but, if we are to be happy we need to take care that we never run out of "mental employment." Most of our tragic examples of teen-age crimes can be traced to an idle and vacant mind, that is like a vacant house, left to ruin.

Busily employed people keep filling their minds with exciting experiences, and make themselves interesting and liked by all those with whom they come in contact. Great thoughts like to companion with other great thoughts. People possessing such thoughts take pride and satisfaction whenever new thoughts appear to spread around.

What a blessing it is to be happy and to drink the joy of life among others in the vast garden of this earth. It is a wonderful thing to accept our lot in life and to bravely battle our way from day to day, as God meant that we should!

Tomorrow Mr. Adams will talk on the subject: "I Find A Treasure."

THE TOILER

He swore that he'd be true to her
If she would only marry him;
That as his wife, throughout his life,
She'd never know a moment grim.

He vowed that he would toil for her,
That she should wear the latest things,
He'd robe in furs that form of hers
And deck her hands with diamond rings.

He promised her a motor car,
And maids to answer her commands;
In water hot, with dish and pot,
He swore she'd never dip her hands.

Oh, fine the promises he made!
Oh, vows by which her heart was stirred!
And since that time, it's been a crime
The way he's worked to keep his word.

EGAN'S CHANCE ENCOURAGING

SEATTLE, Wash. (AP)—William A. Egan, Alaska's young Democratic governor who has been hospitalized since his inauguration, was reported resting comfortably today.

Dr. Henry Bosshard, resident surgeon at the hospital where Egan underwent an emergency operation Tuesday, said he looked in on the governor late in the evening and found him still holding his own.

Egan, given only a 50-50 chance to recover when he was operated on for a bowel obstruction and paralysis of the abdomen, showed some improvement Wednesday afternoon.

"So far it looks encouraging," Dr. Joel W. Baker, head of the surgical team which performed the operation, said at mid-afternoon.

Egan remained on the hospital's critical list, and doctors said it would be several days before the outcome was assured.

St. Francis Spurs To Turn Back Mountaineers 93-85; Cage Lands 38

A brilliant 38-point effort by Ernie Cage, Mt. St. Mary's freshman star, went for nought Wednesday evening when the Mountaineers dropped a hard fought game to St. Francis 93-85 at Altoona.

The defeat was the sixth in the last seven games for Mt. St. Mary's and dropped its overall record to 6-10. St. Francis now has a 10-3 mark.

The game was close until the final eight minutes when the Mountaineers spurted to wrap up the decision.

It was nip and tuck in the first half and at half time the Mountaineers led by a single point, 43-42.

After 12 minutes of the final half, Joe Aston of St. Francis rammed through eight straight points as his team spurted into a comfortable lead and then Willie Troch took over for the Mountaineers to protect the lead until the finish.

Teams Shoot Well
Cage's 18 goals came on but 30 shots from the floor. The Mount team posted a 45.7 per cent shooting average from the floor as compared to 41.5 for St. Francis.

In rebounding St. Francis held the edge 56-47.

Trailing Cage in the Mount scoring were Jack Marshall with 13 and Dick Talley with 10. Troch, Palenski and Aston pounced through 22, 22 and 18 for the Mountaineers.

The Mountaineers will be idle until Tuesday, February 3, when Baltimore will be met at Emmitsburg in a Mason-Dixon Conference game.

LOS ANGELES (AP) — The University of Southern California has placed its football recruits on indefinite probation and removed them from any recruitment function.

Although President Norman Topping did not identify the men whose zeal caused the NCAA to hand the Trojans a two-year suspension, Los Angeles newspapers said they are Nick Pappas and Al Davis.

Pappas is the university's alumni field secretary and Davis an assistant to head football coach Don Clark.

ALL STAR FIVES RATED EVEN

DETROIT (AP) — The East and the West apparently are evenly matched for their National Basketball Assn. All Star duel Friday night at Olympia Stadium.

The East starters — Bob Cousy, Bill Russell and Bill Sharman of Boston, Paul Arizin of Philadelphia and Ken Sears of New York — own an overall per-game average of 20.5 points.

The West starters will be Bob Pettit, Cliff Hagan and Slater Martin of the World Champion St. Louis Hawks, Elgin Baylor of Minneapolis and Gene Shue of Detroit, and this five averages 20.1 points per game.

East Holds Margin
The East has won six of the eight previous contests, and will try to make it three in a row for Coach Red Auerbach of the Boston Celtics, champions of the Eastern Division.

This will be the All Star coaching debut for Ed Macauley, the rookie coach of the Hawks. Macauley was the most valuable player in the first All Star game in 1951, when he paced the East to a 114-94 triumph in the Boston Garden.

Both squads will have at least one opportunity to work out as a unit. The 10-player squads were due in Detroit today and both coaches have indicated they would work out at Olympia Stadium in the afternoon.

Archery Shoot To Be Held Sunday

Winners of last Sunday's shoot were: High instinctive man, Ken Byers, high freestyle man, Robert Ditchburn, high freestyle woman, Peggy Ditchburn, high junior, Shirley Swisher.

SAY CALLISON IS HEADED FOR ROOKIE OF YEAR

By JOE REICHLER
Associated Press Sports Writer

NEW YORK (AP) — The 1959 baseball season is three months off but already experts are saying the youngster to beat for American League rookie of the year honors is John Callison of the Chicago White Sox.

The 19-year-old Bakersfield, Calif., product looked so good after he was brought up for the closing weeks of the 1958 campaign that no less an authority than Casey Stengel remarked he was a cinch to start in left field for the White Sox next season.

The young left-handed slugger heads a list of 15 newcomers who will appear in the White Sox spring camp at Tampa, next month. After hitting .263 for Indianapolis, leading the American Assn. with 29 home runs, Callison hit a solid .287 while driving in 12 runs in 18 games for Chicago.

Another Likely Customer
Another newcomer tabbed as "most likely to succeed," is Barry Latman, a 22-year-old right-handed pitcher, who has a mediocre record at Indianapolis. Latman was a tremendous pitcher in the closing portion of the season with the White Sox with a 3-0 record.

Three newcomers will engage in a dog-fight to survive as one of the extra outfielders. One is Jim McAnany, whose .400 batting average at Colorado Springs of the Western League was the highest in the minor leagues.

Signed out of the University of Southern California as a freshman McAnany throws and runs well and is a capable outfielder. In 119 games he walloped 29 doubles, 26 home runs and drove in 117 runs.

Others On List
Norm Cash returned from military service last June and batted .274 at Indianapolis.

John (Honey) Romano, 24-year-old catcher, figures to battle Earl Battey for the second strong job behind Sherman Lollar Romano was a .291 hitter at Indianapolis.

Catcher Chuck Lindstrom, son of Fred Lindstrom, appears to be in need of more seasoning. Infielder Don Prohovich, 23, batted .296 at Colorado Springs.

Others who may be shipped out again include pitchers Hal Trosky, Jim Derrington, Bill Dufour, Stover McIlwain, Rudolph Arias and Don Rudolph. The last two are relief pitchers and one may stay.

PALM SPRINGS, Calif. (AP) — Forty-one professionals and 123 affluent amateurs set forth today in the first round of the eighth annual Thunderbird Invitational Golf Tournament.

The setting is the Thunderbird Country Club, which has a waiting list for membership almost as long as the 6,800 yards of its golf course.

All of the winners of the new 1959 season, Ken Venturi, Art Wall Jr. and Ernie Vossler, are here. Venturi of Daly City, Calif., won the Los Angeles Open. Wall captured most of the money in Big Crosby's tournament last Sunday, and Vossler, of Midland Tex., won the Tijuana. Open two weeks ago.

The pros must share the sunlight here with a host of club member celebrities. The pro-amateur competition goes on today and Friday.

The pairings include Jimmy Demaret and singer Crosby, Jack Burke Jr. with Bob Hope. Wall with Randolph Scott, Jay Hebert with Ralph Kiner, Lloyd Mangrum with Desi Arnaz and Venturi with Buddy Rogers.

Par is 36-35-71. The pro-amateur purse is worth \$1,000 to the leading pro, and \$1,500 goes to the individual pro winner for 72 holes.

ROBERTSON IS TOP SCORER

NEW YORK (AP) — Cincinnati's Oscar Robertson, like most of the nation's other college basketball players, took a week off for mid-term examinations.

But he was given a passing grade today by the National Collegiate Athletic Bureau for his first semester work on the hardwood through games of Saturday, Jan. 17.

Robertson, last year's scoring champ, topped all scorers with his 32.5 points per game average. A 40-point spurge against Drake last Saturday beamed up his average.

He has 330 points in 12 games, a better than three-point lead over Marshall's Leo Byrd and Mississippi State's Bailey Howell, each with a 29.2 average.

Byrd has 330 points in 12 games, and Howell has 29.2 in 14.

Robertson is among the leaders in two other departments too. He is No. 20 in field goal percentage with .524. St. Bonaventure's Tom Sch leads with a .524 average.

Robertson is tenth in rebounds, with a .178 rate, trailing down the Leroy Wright of College of the Pacific leads with a .226 rate with 339.

Granville Williams of Morehead State is the free throw percentage leader with a .506 average.

LOS ANGELES (AP)—The University of Southern California has placed its football recruits on indefinite probation and removed them from any recruitment function.

Although President Norman Topping did not identify the men whose zeal caused the NCAA to hand the Trojans a two-year suspension, Los Angeles newspapers said they are Nick Pappas and Al Davis.

Pappas is the university's alumni field secretary and Davis an assistant to head Football Coach Don Clark.

DOESN'T LIKE YANKEE OFFER

DALLAS (AP)—Mickey Mantle is busy with the opening of his new bowling center, but not too busy to let it be known he doesn't like the contract the New York Yankees offered him.

"I feel fine, I've felt fine all winter, haven't had any trouble with my knee or anything. I really feel good and I think I'm going to have as good a year as I've ever had, and I've had some good ones," said Mantle Wednesday.

"I want a substantial pay increase," he said flatly.

He denied he was offered a pay cut, but said he wanted more than he was offered.

"We don't discuss prices," he said, but his salary last year was estimated at \$75,000 and he reportedly wants at least \$85,000 this year.

NFL OWNERS, PLAYERS TALK ON PENSIONS

By RALPH BERNSTEIN

PHILADELPHIA (AP)—National Football League owners and representatives of the players association met face-to-face today on the warmest issue between the two groups—player pensions.

The players, led by Bill Howton of Green Bay, have asserted that if the association accomplishes nothing else it will fight for a pension for pro football players.

Advised by atty. Creghton Miller and with the help of such insurance executives as former pro football star Bill Dudley, the association is prepared to show the owners that a plan is feasible.

Can't Afford It

On the other side of the fence, Commissioner Bert Bell of the NFL has said flatly the owners cannot afford a pension. He says such a plan for pro football "just isn't feasible."

Howton and Miller claim to have the answer. They asked Bell and the owners to take time out from their annual winter meeting to talk things over. The commissioner obliged.

The NFL wrapped up its annual 30-round draft Wednesday and prepared today to go into executive sessions expected to last at least through Friday.

Slim Pickings

The coaches and general managers found the draft pickings mighty slim during the more than 13-hour session. Most of the nation's top talent was drafted by the pros at their Dec. 1 meeting.

What was left of the better than average performers went in the early rounds Wednesday.

Notre Dame led all schools in players drafted. Ten of the Fighting Irish squad were tapped. Bob Wetoska, 238-pound end, was made the first choice of the day by the Washington Redskins, who using a choice acquired in a previous trade with Green Bay. The Redskins, who recently lost their coach, Joe Kuharich, to the Irish, picked three other Notre Dame players, tackle Don Lawrence, fullback Ron Roth and halfback Norm Oydine.

Six players each were taken from unbeaten Auburn and Purdue of the Big Ten, with five from Syracuse's Orange Bowl squad and four each from Rose Bowl winner Iowa and Little Trinity (Tex.) College.

ALL STAR FIVES RATED EVEN

DETROIT (AP)—The East and the West apparently are evenly matched for their National Basketball Assn. All Star duel Friday night at Olympia Stadium.

The East starters—Bob Cousy, Bill Russell and Bill Sharman of Boston, Paul Arizin of Philadelphia and Ken Sears of New York—own an overall per-game average of 20.5 points.

The West starters will be Bob Pettit, Cliff Hagan and Slater Martin of the World Champion St. Louis Hawks, Elgin Baylor of Minneapolis and Gene Shue of Detroit, and this five averages 20.1 points per game.

East Holds Margin

The East has won six of the eight previous contests, and will try to make it three in a row for Coach Red Auerbach of the Boston Celtics, champions of the Eastern Division.

This will be the All Star coaching debut for Ed Macauley, the rookie coach of the Hawks. Macauley was the most valuable player in the first All Star game in 1951, when he paced the East to a 114-94 triumph in the Boston Garden.

Both squads will have at least one opportunity to work out as a unit. The 10-player squads were due in Detroit today and both coaches have indicated they would work out at Olympia Stadium in the afternoon.

Archery Shoot To Be Held Sunday

Another shoot will be held by the Pigeon Hill Archers Sunday at the Adams County Fairgrounds, with registration from 2 to 7 p.m.

Winners of last Sunday's shoot were: High instinctive man, Ken Byers; high freestyle man, Robert Ditchburn; high freestyle woman, Peggy Ditchburn; high junior, Shirley Swisher.

SAY CALLISON IS HEADED FOR ROOKIE OF YEAR

By JOE REICHLER

Associated Press Sports Writer
NEW YORK (AP)—The 1959 baseball season is three months off but already experts are saying the youngster to beat for American League rookie of the year honors is John Callison of the Chicago White Sox.

The 19-year-old Bakersfield, Calif., product looked so good after he was brought up for the closing weeks of the 1958 campaign that no less an authority than Casey Stengel remarked he was a cinch to start in left field for the White Sox next season.

The young left-handed slugger heads a list of 15 newcomers who will appear in the White Sox spring camp at Tampa, next month. After hitting 283 for Indianapolis, leading the American Assn. with 29 home runs, Callison hit a solid 297 while driving in 12 runs in 18 games for Chicago.

Another Likely Customer

Another newcomer tabbed as "most likely to succeed," is Barry Latman, a 22-year-old right-handed pitcher, who has a mediocre record at Indianapolis. Latman was a tremendous pitcher in the closing portion of the season with the White Sox with a 3-0 record.

Three newcomers will engage in a dog-fight to survive as one of the extra outfielders. One is Jim McAnany, whose .400 batting average at Colorado Springs of the Western League was the highest in the minor leagues.

Signed out of the University of Southern California as a freshman, McAnany throws and runs well and is a capable outfielder. In 119 games he walked 29 doubles, 26 home runs and drove in 117 runs.

Joe Hicks, a University of Virginia product, was second to McAnany with 381.

Others On List

Norm Cash returned from military service last June and batted .274 at Indianapolis.

John (Honey) Romano, 24-year-old catcher, figures to battle Earl Battey for the second strong job behind Sherman Lollar Romano was a .291 hitter at Indianapolis. Catcher Chuck Lindstrom, son of Fred Lindstrom, appears to be in need of more seasoning. Infielder Don Prohivitch, 23, batted .296 at Colorado Springs.

Others who may be shipped out again include pitchers Hal Trosky, Jim Derrington, Bill Dufour, Stover Melvin, Rudolph Arias and Don Rudolph. The last two are relief pitchers and one may stay.

THUNDERBIRD GOLF TOURNEY OPENS TODAY

PALM SPRINGS, Calif. (AP)—Forty-one professionals and 123 affluent amateurs set forth today in the first round of the eighth annual Thunderbird Invitational Golf Tournament.

The setting is the Thunderbird Country Club, which has a waiting list for membership almost as long as the 6,800 yards of its golf course.

All of the winners of the new 1959 season, Ken Venturi, Art Wall Jr. and Ernie Vossler, are here. Venturi of Daly City, Calif., won the Los Angeles Open. Wall captured most of the money in Bing Crosby's tournament last Sunday, and Vossler, of Midland Tex., won the Tijuana. Open two weeks ago.

List Pairings

The pros must share the sunlight here with a host of club member celebrities. The pro-amateur competition goes on today and Friday. The pros go alone in the final. The pairings include Jimmy Demaret and singer Crosby, Jack Burke Jr., with Bob Hope. Wall with Randolph Scott, Jay Hebert with Ralph Kiner, Lloyd Mangrum with Desi Arnaz and Venturi with Buddy Rogers.

Par is 36-35-71. The pro-amateur purse is worth \$1,000 to the leading pro, and \$1,500 goes to the individual pro winner for 72 holes.

ROBERTSON IS TOP SCORER

NEW YORK (AP)—Cincinnati's Oscar Robertson, like most of the nation's other college basketball players, took a week off for mid-term examinations.

But he was given a passing grade today by the National Collegiate Athletic Bureau for his first semester work on the hardwoods through games of Saturday, Jan. 17.

Robertson, last year's scoring champ, topped all scorers with his 32.5 points per game average. A 40-point spurge against Drake last Saturday beaded up his average. He has 390 points in 12 games, a better than three-point lead over Marshall's Leo Byrd and Mississippi State's Bailey Howell, each with a 29.2 average.

Byrd has 380 points in 13 games and Howell has 409 in 14.

Robertson is among the leaders in two other departments too. He is No. 20 in field goal percentage with .524. St. Bonaventure's Tom Stith leads with a .623 average.

Robertson is tenth in rebounds, with a 17.8 rate, hauling down 186. Leroy Wright of College of the Pacific leads with a .229 rate with 359.

Granville Williams of Morehead State is the free throw percentage leader with a .936 average.

Yankee, Russian Cagers Win Again

SANTIAGO, Chile (AP)—The United States and Russia still were favored to battle it out for the World Amateur Basketball Championship today after chalking up opening-round victories in the round-robin tournament matching teams from seven countries.

The United States, represented by personnel from the Air Force, edged previously unbeaten Bulgaria 63-58 Wednesday night for its fourth straight victory and Russia, after a shaky start, downed Puerto Rico 84-55.

Today's Talk

MENTAL UNEMPLOYMENT

I recently came across a quo-
tation by Jackie Gleason in Look
magazine that set me thinking.
He said: "The whole reason for
juvenile delinquency is mental un-
employment." The useful people
in this world employ ideas, truths,
and unusual knowledge. They are
happy when they are given the
opportunity to store their brains
with things that matter, and
that they can use to good pur-
poses.

People go wrong when they
walk around with empty minds.
They are the ones who help to
fill our jails, and who cause trou-
ble. Mental unemployment be-
comes a menace with them. So
they do foolish and sometimes
illegal things.

One of God's greatest gifts is
the wonderful mind He has pro-
vided for us. We must use it
wisely. We must store it with
useful knowledge, truths, and
ideas. We must use it to the
benefit of ourselves and of
others.

Each one of us can fill his mind
with good things. We can store
it with the words of God. We
can store it with the words of
wise men. We can store it with
the words of our own hearts.

What a blessing it is to be
happy. What a blessing it is to
be useful. What a blessing it is
to be loved. What a blessing it
is to be free. What a blessing it
is to be true.

Tomorrow, Mr. Adams will talk
on the subject: "I Find A Treas-
ure."

THE TOILER

He swore that he'd be true to her
If she would only marry him;
That as his wife, throughout his
life,
She'd never know a moment
grim.

He vowed that he would toil for
her,
That she should wear the
latest things,
He'd robe in furs that form of
hers
And deck her hands with
diamond rings.

He promised her a motor car,
And maids to answer her
commands;
In water hot, with dish and pot,
He swore she'd never dip her
hands.

Oh, fine the promises he made!
Oh, vows by which her heart
was stirred!

And since that time, it's been a
crime
The way he's worked to keep
his word.

EGAN'S CHANCE

ENCOURAGING

SEATTLE, Wash. (AP) — Wil-
liam A. Egan, Alaska's young
Democratic governor who has
been hospitalized since his inau-
guration, was reported resting com-
fortably today.

Dr. Henry Boshard, resident
surgeon at the hospital where
Egan underwent an emergency
operation Tuesday, said he looked
in on the governor late in the
evening and found him still hold-
ing his own.

Egan, given only a 50-50 chance
to recover when he was operated
on for a bowel obstruction and
paralysis of the abdomen, showed
some improvement Wednesday
afternoon.

"So far it looks encouraging,"
Dr. Joel W. Baker, head of the
surgical team which performed
the operation, said at midday.
Egan remained on the hospital's
critical list, and doctors said it
would be several days before the
outcome was assured.

TRIAL OF GREEN AND 6 OTHERS MOVES SLOWLY

By LEE LINDER
LEWISBURG, Pa. (AP) — The federal conspiracy trial of powerful Democratic Congressman William J. Green Jr. and six others continued its slow pace today, constantly interrupted by defense objections to the introduction of documents and contracts.

These papers relate to the construction of the 33 million dollar Army Signal Corps Depot at Tobyhanna, near Scranton. It is in connection with the construction that a Grand Jury, in 1956, indicted the 46-year-old Congressman and the others on charges of conspiracy to defraud the government.

Five of Green's co-defendants held contracts for the construction. The congressman, who heads Philadelphia's Democratic party, was a member of the House Armed Services Committee which supervised the building of the depot.

To Recall Wicker
Oliver Dibble, chief government prosecutor, was to recall to the witness stand Clarence F. Wicker, head of the Engineering Division of the Army Engineer's Office in Philadelphia.

This phase of the case primarily concerns John P. Gilboy, one of the defendants, and, at the time of the alleged conspiracy, a Scranton contractor.

Wicker's office made the recommendation which gave the overall architectural and engineering contract for the depot to Gilboy's firm.

Vigorous Objections
A part of the indictment alleges that Gilboy and a partner, the late Eugene Stopper, gave the Army Engineers fictitious and fraudulent statements concerning their company—Gilboy, O'Malley and Stopper—and that the contract was left to the firm on the basis of these false statements.

Six brochure-like documents were offered in evidence Wednesday.

They detailed the firm's available capital, the ability of its personnel and similar data.

Battling All The Way
But U.S. District Judge Frederick V. Follmer ruled that O'Malley was an officer in the corporate firm of which Gilboy was then a member and that he was acting for the firm in submitting the brochures.

Virtually every document the government has attempted to introduce in the trial, now in its second week, has met with strong objections from the several defense attorneys. But in most instances, Judge Follmer has overruled them. He has said his decisions

were based on Dibble's indication he intends to tie the various documents together as part of the alleged general conspiracy.

Wicker, who was still testifying when the judge recessed the trial Wednesday, said he first heard of the Tobyhanna project at a conference in Washington on Jan. 3, 1951 and received official notice from the government Jan. 19.

Visited By Gilboy
Between these dates, he testified, he was visited twice by Gilboy who asked him what the chances were for getting the major contract. He said Gilboy told him he realized the Tobyhanna project might be too big for the firm and asked Wicker if he knew of any architect who might be interested in forming a partnership with Gilboy.

On his first visit, it was brought out that Gilboy was in partnership only with O'Malley, but by the second visit, the firm had been enlarged to include Stopper.

Among the documents introduced was a copy of a Gilboy firm brochure submitted to the government in December, 1950, and another submitted on Jan. 16 of the following year. It was brought out that the second brochure claimed a greater capacity for the firm than the first.

WILLIAMSPORT, Pa. (AP) — Anthony Grieco, about 58, operator of a produce business here, drowned in the ice-jammed Susquehanna River Wednesday.

Earl Miller, Lycoming County coroner, said Grieco's body was recovered about 1 1/2 hours after Grieco jumped from the Market Street Bridge.

WALKS FOR HELP

HURLOCK, Md. (AP) — A 3-year-old boy walked a mile to get help for his mother when she was pinned in the wreckage of her car.

Mrs. Elaine Bryan's car had skidded on an icy patch of road and overturned.

Her son, Mark, not hurt, walked along the road until he encountered Jerome Thomas, who came to the rescue.

The mother was not seriously injured.

UNCLE SAM IS BILLED FOR COW

OKEMAH, Okla. (AP) — A government experiment may cost \$210 additional because of what it did to a curious cow.

Farmer A. L. Starkey sent a bill for that amount to Weather Bureau officials who, in turn, forwarded the message of the cow's death to Washington.

Weathermen sent a balloon to the earth's outer atmosphere. It burst and then settled back to earth—in a pasture occupied by Jessie, a 3-year-old polled Hereford.

She munched on the equipment and despite efforts of a veterinarian, she died.

"You can call Bessie a victim if the space age if you want to," said Starkey. "But she was worth \$210—maybe more."

HE CALLS FOR YEAR-AROUND GOP ACTIVITY

By JACK BELL

DES MOINES, Iowa (AP) — President Eisenhower told the Republican National Committee Wednesday that the GOP must become a "hibernating elephant" that awakes only at election time.

In a message to National Chairman Meade Alcorn, the President called for a sustained year-around program of Republican campaigning which would imprint the image of "progressive leadership" on the party.

This was in harmony with Alcorn's own recommendations to the National Committee in its initial meeting of a two-day session that the party "preach and practice an enlightened Republicanism 365 days a year."

Shouldn't Hibernates

Saluting Alcorn's proposal for formation of a year-around campaign staff, Eisenhower said the sessions here should become the first step in a continuous work program of the Republican party that will never cease.

"I deeply regret that some people look upon our party as a kind of hibernating elephant who wakes with a mighty trumpet blast at election time and then rests calmly until the next campaign," Eisenhower said.

Monthly Dues

"Political activity must be a matter of unremitting effort. It must go on 365 days a year if we are to maintain the vitality that has made our nation great. Only 60 days remain until the next national election. We must make each of them count. Every day we lose is one we can never get back."

Eisenhower called for action to induce a "clear understanding of our long-range objectives." Only in this way, he said, "can we lift creative Republicanism to new heights of national achievement."

Alcorn announced to the party's executive committee Tuesday that Eisenhower had approved a plan for continuous campaigning by the Republicans, financed by monthly dues payments from contributors.

GIANT GONE FROM SCENE IN HOLLYWOOD

By BOB THOMAS

AP Movie-TV Writer

HOLLYWOOD (AP) — A giant has gone.

The heart of Cecil B. DeMille stopped Wednesday morning, erasing the most colorful movie maker from the Hollywood scene he had dominated for 45 years. DeMille always invited superlatives: his films were the biggest, made the most money, were seen by more people throughout the world.

Superlatives aside, what kind of a man was he? The answer is best told in his own words.

Had Doubts Of Ability

Despite his outward assurance, he said he faced his job with trepidation.

"I have never made a picture without being frightened," he said. "Of what? Of my own ability. Of whether I squeezed the most out of my material. Of whether I created something that would bring the public's heart."

He prepared his scripts with infinite pains. "A good story is everything. If you have that, the director and the stars do not make much difference. They can help a picture a little or hurt it a little. But they can't make a good script into a bad picture, or a bad script into a good picture."

Attention To Detail

He supervised even the smallest details in his films. "What did the people wear and eat in those Biblical times? Did they eat roast beef or lamb chops or what? It would be as bad to show them eating the wrong thing as it would be to show them dressed in tails and top hats."

He made pictures for the public alone, though the disdain of the intellectuals stung him. "I have often wondered why critics are hostile. If the people are entertained, that should be enough. Every time I make a picture, critics' estimation of the public drops 10 per cent."

Five Sentenced For Drunken Driving

Five motorists who pleaded guilty to charges of drunken driving were given terms of 15 days in jail and fined \$50 and costs each in Cumberland County court Monday.

Sentenced for tipsy driving were John Max Cramer, 70, Haverstown, Md.; Larry Lee Kenec, Juncannon; Roy L. Weidner, Juncannon; Orville Shoap, Newburg; and Glenn Peters, Smokeun, Pa. On a charge of failure to stop at the scene of an accident and reveal identity, Peters was given a suspended sentence and fined.

Lawrence Hershey, York Springs, Pa., charged with issuing 11 worthless checks for \$124, was given a suspended sentence on condition that restitution be made before the May term of court.

NEW YORK (AP) — Victor Jory, veteran portrayer of suave gentlemen on stage and screen, is tackling a new chore now as a

co-producer. He is teaming with Douglas Crawford to present "The Prisoner" on Broadway. The Bridget

Boland drama was seen in London in 1954. Besides sharing in the management, Jory is to star in the lead role.

SENATOR HAS PLAN FOR NEW PENNA. TAX

HARRISBURG (AP)—Sen. William J. Lane (D-Washington) today suggested a state tax on unincorporated businesses and professions as a possible partial answer to Pennsylvania's fiscal problems.

"The state of New York has a tax on unincorporated businesses and professions and from what I can learn it is a substantial fund raiser," Lane told a newsman.

The Washington County lawmaker said he will submit the entire New York state tax system to Democratic leaders "for their consideration" in formulating ideas for a state tax program.

Already Corporation Tax
"I am unable to say at the moment just how much revenue is raised in New York through this unincorporated business tax but it is substantial," Lane explained.

EMMITSBURG — The first, second and third degrees of Knights of Columbus, Brute Council 1860 and Mt. St. Mary's Council 1965, Emmitsburg, were exemplified Sunday at Mt. St. Mary's College.

Admitted to Brute Council were James O. Adelsberger, Lawrence L. Dunn, Richard R. Little, Maurice E. Michael, John H. Walter, Thomas H. Zurgable and Francis G. Adelsberger.

After the exemplification a banquet was served to the group at the American Legion Home, Gettysburg. Gerald E. Sherry, managing editor of the Baltimore Catholic Review, was speaker.

I'm definitely not proposing this tax to the Democratic or Republican leaders, but I do say they should look into it as a possible substantial revenue-raiser," Lane said.

Pennsylvania now taxes unincorporated businesses but does not have a levy on unincorporated business or professions.

hit by floods included Mount Vernon, Newark and suburban Hanover, New Miami, St. Marys, and Columbus.

Ice Jams Creeks
In Pennsylvania, six communities in the western section reported some flooding from the ice-jammed and swollen creeks. They were Sharon, Oil City, Franklin, Meadville, East Greenville and Kennard. Some families were evacuated in Sharon as the Shenango River continued to rise.

Rivers also were rising steadily in Pittsburgh, and fears of flooding mounted at cities along the Allegheny River as ice gorges began cracking up.

Strong southerly winds along the Eastern seaboard intensified the cold front which advanced into the western section of the Atlantic Coast states. Violent thunderstorms which hit the region Wednesday diminished. However, showers and thundershowers were general from Georgia northward into Maine.

7-Inch Snowfall
In areas not hit by the cold front, temperatures ranged from the 70s in Florida to the 60s from Georgia into the Carolinas, in the 30s through New York, and the 40s and 50s in the extreme northern areas. New York City's 59 was near the record high of 61.3 for the date.

Heaviest snow during the night was in lower Michigan and the northwest tip of Indiana. At South Bend, Ind., one of the cities hardest hit by last week end's snow storm, seven more inches of snow fell, making a total snow cover of more than two feet. Falls in lower Michigan, mostly in western sections, were three to five inches. Nearly normal winter weather prevailed west of the Rockies.

HEADS YOUNG GOP

John George, Chambersburg, a printer at The Gettysburg Times, is the new chairman of the Franklin County Young Republican Club. He was elected by 18 members of the county group Tuesday night at a meeting at the Chambersburg YMCA.

C. LAMBERSON

tons per acre and 30 acres in timothy producing 140 pounds of seed per acre.

Modernized His Farm
The 150 chickens grew to a flock of 13,000 laying hens, producing an average of 210 eggs per year per chicken, and the five head of dairy cattle increased to 50 head averaging 7,200 pounds of milk per year per cow.

Where he did all the work himself in the beginning, he now employs four men full time and 15 during harvest seasons.

Modernization of the farms has accompanied the growth of the operation, strip cropping, sod waterways and similar erosion control measures have been installed. Automatic poultry feeders, an electric elevator platform, a pickup baler, corn pickers, a self-propelled combine with attachments to pick and shell corn are among modern machinery introduced. Lamberson even uses his own airplane for inspection of the farm lands and on business trips during the rush season on the farms. On the five farms, three of the barns have been renovated to handle the 13,000 laying hens, and baths, sinks and hot water have been installed in the five farm houses.

Active In Community
A member of St. John's United

Church of Christ, he has been superintendent of the Sunday School of nine years, a teacher in the Sunday School for seven years, secretary of the cemetery association for six years and a member of the church council. He has been a member of the county poultry federation and served as its president in 1957. A member of the Adams County Senior Extension Club for four years, he is chairman of its sports committee, and served as its treasurer in 1956.

He is chairman of the Adams County Agricultural Stabilization and Conservation Committee and reports for the state agricultural statistics group. He provided softball and volleyball courts for his church and community teams.

INSTALL OFFICERS

The following officers of the Brushtown Fire Co. were installed Tuesday evening by Henry E. Waltman, Littlestown, in the company hall: Edgar C. Worley, president; Gilbert Stahl, vice president; George Gilbert, secretary; Henry Conner, treasurer; Claude Murren, chief; Henry Conner and Lewis Klunk, first and second assistant chief, respectively; Francis Murren, director for three years; Edward Masenheimer, director for two years; Lester Strevig, director for one year; Henry Conner, truck foreman, and Gilbert Stahl, hose director.

SAYS OUTDOOR FIRE ESCAPES ARE USELESS

HARRISBURG (AP)—Pennsylvania's top building inspector today described outdoor fire escapes on school buildings as useless and more a hazard than a safety factor.

This is the opinion of John Dwyer, chief of the Inspections Bureau of the Labor and Industry Department, who contends that only fire-proofed stairways can do any good in saving lives in a fire. "The average fire escape outside is of very little or no good at all when a fire breaks out," Dwyer said.

Explains Faults
"They are sometimes hard to get to, not lighted and many times they are not even workable."

And it was for lack of fire-proofed stairways, known as fire wells, that the department ordered 73 schools to either make safety repairs or close their doors.

Two weeks ago the bureau began a crash program of school inspections which resulted in the closing of many schools.

May Appeal Order
"This doesn't at all mean that the children will be shoved out into the cold without any classes," cautioned William L. Bart Jr., labor and industry secretary. "Each of these schools now may appeal the close order to the State Industrial Board and can continue to operate until the board takes some definite action one way or the other," Bart said.

Of the 73 schools ordered closed.

Admits Now He Wounded Himself

WARREN, Pa. (AP)—A Corryman who first said he was shot by an ungrateful woman motorist has been ordered held for court after admitting he shot himself.

Richard Fairchild, 22, led officers to the gun after his release from the hospital Tuesday.

Fairchild originally claimed he was driving along Route 6 about three miles west of Warren Jan. 12 and came across two women standing by a car with a flat tire.

He said he stopped and fixed the tire. Then he claimed one of the women said: "This is for your trouble," and shot him in the left shoulder with a rifle.

Police charged Fairchild with driving the auto while under suspension. Bond was set at \$300.

he said more than 25 already have notified the department they will appear before the industrial board and state their cases Thursday.

Big Financial Problem
"In each of these 73 cases the cause for the order was that the buildings—all old ones—had open stairways that could act as flues in the event of a fire on a lower floor," Dwyer said.

Dwyer said some of the schools face a big financial problem in adjusting their buildings to safety standards.

He said it would cost about \$1,000 to install temporary fireproofing on open stairways and about \$8,000 to \$10,000 for a permanent fire well.

"We would allow a school to operate after the hearing if it showed us plans for temporary or permanent fireproofing of stairways," Dwyer said.

"But I'm sure the board can't do anything but actually close the schools if the local officials refuse to fireproof or if they claim they haven't the funds to do it."

SUGGEST NEW CABINET POST

HARRISBURG (AP)—Senate committee study today was given a proposal that a \$20,000-a-year post of Cabinet rank be established for supervision of an atomic development regulation in Pennsylvania.

Three Democratic senators submitted a proposal Tuesday asking for the establishment of an office of coordinator of atomic development activities.

A similar proposal was voted down in the Senate during the 1957 Legislature.

The sponsors said the agency would stimulate Pennsylvania participation in a federal plan "to encourage the widespread participation in the development and utilization of atomic energy for peaceful purposes."

The coordinator would confer with various state agencies in coordinating atomic energy development and regulating its use.

The bill (S51) was introduced by Sers. Lane (Washington), Camille (Phila.) and Donolow (Phila.).

FAMILY DINNER
Old-fashioned and still a delicious combination.
Split Pea Soup
Franks with Spicy Red Cabbage
Potatoes Bread Tray
Fruit and Cookies Beverage

FRANKS WITH SPICY RED CABBAGE
Ingredients: 2 tablespoons butter or margarine, 6 cups knife-packed, 1/4 cup (1 small) finely chopped onion, 1/4 cup light brown sugar (firmly packed), 1/2 cup cider vinegar, 1/2 teaspoon salt, 1 large red baking apple (cored and cut into eighths), 8 to 10 (1 to 1 1/4 pounds) frankfurters.

Method: Melt butter in 12-inch skillet over low heat; add red cabbage, onion, brown sugar, vinegar and salt; mix well. Add unpeeled apple. Cover and simmer, stirring occasionally, for 20 minutes; apple will take on red color of cabbage. Bury frankfurters in cabbage, cover and simmer 20 minutes longer or until frankfurters are hot through and cabbage as soft as desired; stir cabbage a few times and turn frankfurters over. Makes 4 to 5 servings. If baking apples are used, they should not disintegrate during cooking.

LADIES' LUNCH
This dessert is for those eaters who like both pumpkin 'n' spice.

CREAMED CHICKEN ON TOAST
Broccoli Salad Bowl
Bavarian Pumpkin Cream Beverage

BAVARIAN PUMPKIN CREAM
Ingredients: 1 envelope unflavored gelatin, 1 cup sugar, 1/2 teaspoon salt, 1/2 teaspoon cinnamon, 1/2 teaspoon nutmeg, 1/2 teaspoon ginger, 1/2 cup homogenized milk, 3 eggs yolks, 1 1/2 cups canned pumpkin, 1 cup heavy cream.

Method: In the top of a double boiler, stir together well the gelatin, sugar, salt, cinnamon, nutmeg and ginger. Stir in milk; with a whisk beat in the egg yolks, then the pumpkin. Cook and stir constantly over boiling water until gelatin and sugar are dissolved and mixture is very hot — 10 minutes or longer. Chill until a spoonful of the mixture dropped back levels very slowly or holds its shape. Beat cream until thick, fold into pumpkin mixture. Turn into 5-cup mold or individual molds; chill until set. Unmold, serve with whipped cream if desired. Makes 6 to 10 servings.

SNACK FOR FRIENDS
Serve the popular ham and cheese combination this way.
Relish Sandwiches Beverage
Cookies Fruit Bowl

RELISH SANDWICHES
Ingredients: 1 cup ground baked ham (firmly packed), 1 cup medium-fine grated cheddar cheese (lightly packed), 1/2 cup mayonnaise, 1/4 cup sweet pickle relish, buttered bread.

Method: Mix together well the ham, cheese, mayonnaise and pickle relish. Use as filling between slices of buttered bread. Make about 2 cups spread. Amount of spread needed for each sandwich will depend on how thick or thin bread is sliced.

THE BRIDE COOKS DINNER
Ruby-red applesauce, as good to look at as to eat.
Pork Chops Ruby Applesauce
Mashed Potatoes Snap Beans
Salad Bowl Bread Tray
Spanish Cream Beverage

RUBY APPLESAUCE
Ingredients: 1/2 cup water, 1/2 cup canberries, 3 medium-sized McIntosh apples, salt, 1/4 cup sugar.

Method: Put the water and canberries in a 1-quart saucepan. Quarter apples and core. Slice thin without peeling; arrange over canberries. Add a dash of salt. Boil over moderate heat until canberries all pop — about 5 minutes. Continue to cook fairly rapidly, stirring a few times until apples are soft; watch so as not to scorch because mixture will be thick. Stir in sugar over low heat. Put through food mill or force through a strainer. Makes about 1 cup. Chill before serving.

FAMILY SUPPER
Intriguing flavor for spinach.
Meat Loaf Baked Potatoes

Baked Acorn Squash
Savory Spinach Bread Basket
Fruit Salad Beverage

SAVORY SPINACH
Ingredients: 1 package (10 ounces) frozen chopped spinach, 1/4 cup boiling water, 1 teaspoon salt, 2 1/2 tablespoons butter or margarine, milk, 1/2 cup finely sliced scallions (without green tops), 2 tablespoons flour, pepper.

Method: Put frozen spinach, boiling water and 1/2 teaspoon of the salt in a 1 1/2-quart saucepan. Have heat moderate and turn spinach with a fork occasionally to break up; cook a few minutes longer. Drain, reserving liquid in a measure; add enough milk to spinach liquid to make 1 cup. Melt butter in a saucepan over low heat; add scallions, cook gently, stirring several times, until golden — about 5 minutes. Stir in flour; add milk mixture, remaining 1/2 teaspoon salt and pepper to taste. Cook and stir over low heat until thickened and bubbly. Add drained spinach, reheat. Makes 4 servings.

AFTER-SCHOOL SNACK
One of the best of the quick-leaf recipes.

Ingredients: 2 cups sifted flour, 1 teaspoon baking powder, 1/2 teaspoon baking soda, 1/2 teaspoon salt, 1/2 cup firmly packed light brown sugar, 2 tablespoons butter or margarine, 1/2 cup boiling water, 1/2 cup orange juice, 3 tablespoons coarsely grated orange rind, 1 egg, 1 cup thinly sliced pitted dates, 1/2 cup coarsely chopped Brazil nuts.

Surprise Baked Noodles
(Makes 4 servings)
2 1/2 cups cooked wide noodles
1/2 cup finely chopped onion
1 pound ground beef
1 tablespoon minced scallions
1 tablespoon flour
1/4 teaspoon pepper
1 1/2 teaspoons garlic salt
1/4 teaspoon ground nutmeg
2 tablespoons chili powder
1 egg beaten
1 cup evaporated milk
1 1/2 cups shredded cheddar cheese
1/2 cup sliced ripe olives
2 tablespoons parmesan cheese

Place noodles in 8-inch casserole. Brown onion and beef in melted shortening. Drain excess fat. Blend in flour and seasonings. Stir in tomatoes. Add tomatoes and olives. When mixture starts to bubble, pour over noodles. Bake in moderate oven (350° F.) 20 to 30 minutes.

Enemy Sub Offshore In Fog Or Darkness Could Blanket Coastal Cities With Germs

By ROGER GREENE
WASHINGTON (AP)—An enemy submarine, masked by fog or darkness a few miles offshore, could blanket almost any American coastal city with deadly germs spreading over thousands of square miles.

Fantastic? It already has been done—by U.S. Navy ships using harmless materials.

Dr. LeRoy D. Fohrger, scientific adviser at the Army's Germ Warfare Research Center at Ft. Detrick, Md., recently gave the American Medical Assn. an inkling of what might happen.

100 Square Miles
Fohrger said a U.S. Navy craft, traveling two miles offshore in moderate fog, sent up a spray of biological aerosols, containing a nonpathogenic organism. The mock attack lasted 29 minutes, using 120 gallons of spray. The germs were detected as far as 25 miles away and covered 100 square miles.

What is being done to cope with the possibility of such an enemy attack, using live germs or deadly chemical gas? The Defense Department is wary about answering such questions.

Have Warning Service

The Army announced several years ago it had developed an aerosoloscope to give instant warning of a germ warfare attack. The device can count germs, dust and moisture particles as small as a micron—one forty-millionth of an inch—1,000 times faster than a micro-scope.

The Army Chemical Corps has developed an infrared device, known as "Lopar," long-potential infrared—which flashes a warning light and sounds a horn upon detecting even a tiny amount of colorless, invisible contamination in the air. It has a range of a quarter mile.

This question was submitted to the Pentagon: "How many automatic nerve-gas detecting devices are now in use? Where?"

After 25 days of deliberation, the Pentagon came up with this answer: "Many of these automatic

devices are in use throughout the Department of Defense. The exact number and locations of the devices is classified secret."

So Far So Good
Less hidebound by secrecy, the Office of Civil and Defense Mobilization says that by 1967 it expects to have 1½ million monitors trained to defend against chemical, biological and radiological warfare.

So far, so good, but—
The ODCM admits that if an enemy should strike today with germ or chemical warfare, the American public would be unable to buy or obtain either gas masks or antigas protective clothing.

BY VIVIAN BROWN

"You aren't ready for marriage unless you have learned to love the faults of the one you love," says movie and TV star John Bromfield.

And if you throw up your hands and shriek "The faults!" you've proved his point: that you are immature.

"Why do young people rush in to marriage?" asks John. "It is hard to convince them they may not be in love just because they think so. They have nothing to compare that feeling to, and may not be prepared to marry that first love, any more than their second or third love."

John learned that lesson the hard way.

Sacrifices
"You must be prepared to make sacrifices. I want it and it was no fault of the girl and our marriage didn't work out. I was emotionally immature even at

CHURCH GETS \$10700 ESTATE

The Most Rev. George L. Leech, bishop of the Diocese of Harrisburg, was named trustee in the will of Mary K. Sneeringer entered for probate Wednesday in the office of register and recorder.

The Rev. John P. Eolen, pastor of the Conewago Chapel, is the executor of the estate valued at \$10,700.

According to the will, \$900 was designated to the pastor of the Church of the Sacred Heart, known as Conewago Chapel, for masses for the repose of the deceased's soul, and the souls of other deceased members of the Sneeringer family. In another bequest she gave \$300 to the church for use in its parochial school.

The remainder of the estate, both real and personal property, was devised to Bishop Leech in trust for the Conewago Chapel with these terms:

May Be Sold Later
The brothers and sister of the deceased, Anna Lilly, Henry and Louis, shall be permitted to live in the farm house on the home farm as long as they live. At the trustee's discretion, he may subdivide the real estate with the exception of that portion retained for the church purposes, into parcels or lots to sell at public or private sales. The proceeds from such sales is to be used for the benefit of the Conewago Church.

Each year subsequent to her death and during the lifetime of her brothers, Henry and Louis, \$250 should be "earmarked" for their support and maintenance and to alleviate any emergency that may arise. Any of such funds remaining upon the death of both brothers is to be given for the benefit of Conewago Chapel.

Upon the death of the brothers, the trustee is directed to pay the remaining balance "in his hands" to the pastor of the Conewago Chapel for church uses.

The trustee was instructed he may retain any portion of the home farm property for the benefit of the Conewago Church and is authorized to manage and operate that portion, annually turning over to the church the net income derived from its operation.

that age, 26."

It is true, agrees John, that some young people can work out their destinies at an early age, and be happy. But they are in the minority.

"What young people feel for the opposite sex is infatuation or idealism, often mistaken for love. It is easy, for instance, to fall in love with an idol—a baseball star or a football player. But will he make a good husband, that is the question?" says John, who was a first rate athlete—lightweight intercollegiate boxing champion and football player at St. Mary's in California.

The handsome rugged star of TV's "U.S. Marshall" says he feels keenly about these marriage problems because he has seen many young people ruin their lives, making the wrong choice, and because so much of his fan mail dwells on the early marriage theme.

Be Sure
"Parents should insist on these marriage-bent youngsters waiting until they are sure. They should realize that heartbreak is better now than later, and that a few heartbreaks help give a better understanding of life and character."

Parents do have a problem, he says, because it is so hard to slow young people down. The beat of their music and everything else about their generation is fast. A 21-year-old girl and 25-year-old man are ideal age for marriage in his estimation, because they have matured, but try to sell an 18-year-old girl on that idea.

Young people are taking their bumps on all fours, but do not profit by the experience of their friends, he says. John's pet crusade is car safety, which he preaches on his program and in safety lectures across the country.

Easy Parents
"They have so much mad, reckless energy. Parents should give them more cause to use it wisely and beautifully," he believes. "A parent lets an offspring have a car about whose use he knows nothing except to step down on the gas and change the tire."

It can be to be passed out like ice cream cones, then they should go with them he says. Young people should know the dangers of the hot rod, the old jalopy, or a new car driven on slippery pavement. Our highways are not built for modern car horsepower, he says, one reason why he is on the national safety kick.

WASHINGTON (AP)—Both Andrew W. Roland and Walter U. Stanley showed up in court with housing problems.

Roland was being sued on a Health Department complaint that his home was too small for his family of nine.

Stanley was being sued for not paying his rent. He said his home was too big and expensive for his family of five.

Both cases were settled in one stroke. Roland and Stanley swapped homes.

Enemy Sub Offshore In Fog Or Darkness Could Blanket Coastal Cities With Germs

By ROGER GREENE
WASHINGTON (AP)—An enemy submarine, masked by fog or darkness a few miles offshore, could blanket almost any American coastal city with deadly germs spreading over thousands of square miles.

Fantastic? It already has been done—by U.S. Navy ships using harmless materials.

Dr. LeRoy D. Fothergill, scientific adviser at the Army's Germ Warfare Research Center at Ft. Detrick, Md., recently gave the American Medical Assn. an inkling of what might happen.

100 Square Miles
Fothergill said a U.S. Navy craft, traveling two miles offshore in moderate fog, sent up a spray of biological aerosol containing a nonpoisonous organism. The mock attack lasted 29 minutes, using 130 gallons of spray. The germs were detected as far as 23 miles away and covered 100 square miles.

What is being done to cope with the possibility of such an enemy attack, using live germs or deadly chemical gas? The Defense Department is wary about answering such questions.

Have Warning Service
The Army announced several years ago it had developed an aerosoloscope to give instant warning of a germ warfare attack. The device can count germs, dust and moisture particles as small as a micron—one forty-millionth of an inch—1,000 times faster than a microscope.

The Army Chemical Corps has developed an infrared device—known as "Lopair" (long-path infrared)—which flashes a warning light and sounds a horn upon detecting even a tiny amount of colorless, invisible contamination in the air. It has a range of a quarter mile.

This question was submitted to the Pentagon: "How many automatic nerve-gas detecting devices are now in use? Where?"

After 25 days of deliberation, the Pentagon came up with this answer: "Many of these automatic

devices are in use throughout the Department of Defense. The exact number and locations of the devices is classified secret."

So Far So Good
Less hidebound by secrecy, the Office of Civil and Defense Mobilization says that by 1967 it expects to have 1½ million monitors trained to detect against chemical, biological and radiological warfare.

So far, so good, but—
The OCDM admits that if an enemy should strike today with germ or chemical warfare, the American public would be unable to buy or obtain either gas masks or antigas protective clothing.

"You aren't ready for marriage unless you have learned to love the faults of the one you love," says a movie and TV star John Bromfield.

And if you throw up your hands and shriek "The faults?" you've proved his point: that you are immature.

"Why do young people rush into marriage?" asks John. "It is hard to convince them they may not be in love just because they think so. They have nothing to compare that feeling to, and may not be prepared to marry that first 'love,' anymore than their second or third 'love.'"

John learned that lesson the bitter way.

Sacrifices
"You must be prepared to make sacrifices. I won't and it was no fault of the girl and our marriage didn't work out. I was emotionally immature even at

CHURCH GETS \$10700 ESTATE

The Most Rev. George L. Leech, bishop of the Diocese of Harrisburg, was named trustee in the will of Mary K. Sneringer entered for probate Wednesday in the office of register and recorder. The Rev. John P. Bolen, pastor of the Conewago Chapel, is the executor of the estate valued at \$10,700.

According to the will, \$300 was designated to the pastor of the Church of the Sacred Heart, known as Conewago Chapel, for masses for the repose of the deceased's soul, and the souls of other deceased members of the Sneringer family. In another bequest she gave \$500 to the church for use in its parochial school.

The remainder of the estate, both real and personal property, was devised to Bishop Leech in trust for the Conewago Chapel with these terms:

May Be Sold Later
The brothers and sister of the deceased, Anna Lilly, Henry and Louis, shall be permitted to live in the farm house on the home farm as long as they live. At the trustee's discretion, he may subdivide the real estate with the exception of that portion retained for the church purposes, into parcels or lots to sell at public or private sales. The proceeds from such sales is to be used for the benefit of the Conewago Church.

Each year subsequent to her death and during the lifetime of her brothers, Henry and Louis, \$250 should be "earmarked" for their support and maintenance and to alleviate any emergency that may arise. Any of such funds remaining upon the death of both brothers is to be given for the benefit of Conewago Chapel.

Upon the death of the brothers, the trustee is directed to pay the remaining balance "in his hands" to the pastor of the Conewago Chapel for church uses.

The trustee was instructed he may retain any portion of the home farm property for the benefit of the Conewago Church and is authorized to manage and operate that portion, annually turning over to the church the net income derived from its operation.

that age, 26." It is true, agrees John, that some young people can work out their destinies at an early age, and be happy. But they are in the minority.

"What young people feel for the opposite sex is infatuation or idealism, often mistaken for love. It is easy, for instance, to fall in love with an idol—a baseball star or a football player. But will he make a good husband, that is the question?" says John, who was a first rate athlete—a lightweight intercollegiate boxing champion and football player at St. Mary's in California.

The handsome rugged star of TV's "U. S. Marshal" says he feels keenly about these marriage problems because he has seen many young people ruin their lives making the wrong choice, and because so much of his fan mail dwells on the early marriage theme.

Be Sure
"Parents should insist on these marriage-bent youngsters waiting until they are sure. They should realize that heartbreak is better now than later, and that a few heartbreaks help give a better understanding of life and character." Parents do have a problem, he says, because it is so hard to slow young people down. The beat of their music and everything else about their generation is fast. A 24-year-old girl and 28-year-old man are ideal age for marriage in his estimation, because they have matured, but try to sell an 18-year-old girl on that idea.

Young people are taking their bumps on all fronts, but do not profit by the experience of their friends, he says. John's pet crusade is car safety, which he pumps on his program and in safety lectures across the country.

Easy Parents
"They have so much misdirected energy. Parents should give them more chance to use it wisely and healthfully," he believes. "A parent lets an offspring have a car about whose use he knows nothing except to step down on the gas, and change the tire."

If cars are to be passed out like ice cream cones, then rules should go with them he says. Young people should know the dangers of the hot rod, the old jalopy, or a new car driven on slippery pavement. Our highways are not built for modern car horsepower, he says, one reason why he is on the national safety kick.

WASHINGTON (AP)—Both Andrew W. Roland and Walter L. Stanley showed up in court with housing problems.

Roland was being sued on a Health Department complaint that his home was too small for his family of nine.

Stanley was being sued for not paying his rent. He said his home was too big and expensive for his family of five.

Both cases were settled in one stroke. Roland and Stanley swapped homes.

CARLSANDBURG GETS DEGREE FROM UPSALA

By ANDREW MEISELS
EAST ORANGE, N.J. (AP) —
"The fog," Carl Sandburg once wrote, "comes on little cat feet."

Carl Sandburg doesn't.

The dynamic 80-year-old poet and writer came in out of the fog Tuesday night to receive an honorary doctor of letters degree from Upsala College.

Then he delivered a forceful speech, read from his works and the works of others and capped the evening with a few songs.

The white-haired bard spoke of poetry, politics and the people. Of modern poets, Sandburg said: "They ain't doing so good."

He called modern poetry "a variety of cliques, cliques and movements."

Won Pulitzer Prize

Sandburg, who won the Pulitzer Prize in 1930 for his biography of Abraham Lincoln, spoke at length about the Great Emancipator.

He spoke also of the problems raised by the Civil War and of Arkansas Gov. Orval Faubus.

"Before the Civil War, official documents used to read 'the United States is,'" Sandburg said.

"Faubus don't (sic) know the United States is" — but he gonna (sic) know."

Wearing his customary black suit and black four-in-hand tie, Sandburg charmed the audience of 2,500 by playing a few folks songs on his guitar.

Asked about the so-called "beat generation," he snapped: "They're neither a generation nor are they beat. They're eating regular."

HEAVY TRAFFIC TOWARD CUBA

MIAMI, Fla. — Cubans are streaming home from exile in numbers that have caused officials talking of records.

All that acting consul Oscar Ramirez, 35, can think of today is a bath and bed.

"We are doing business as never before," the Miami man said.

"Fees for processing outbound Cubans are running to \$2,000 a day. In the days before Batista fell, daily receipts from the same source were \$100 to \$200."

In addition to expediting the return of Cubans, Ramirez Tuesday was helping about 40 newsmen who planned to take advantage of the revolutionary government offer to fly from Miami today for an eyewitness view of the mass meeting scheduled in the Presidential Palace Square at Havana this afternoon.

Files Suit In Plane Fatality

GREENSBURG, Pa. (AP) — A Westmoreland County widow filed suit for damages today against the Latrobe Construction Co. as the result of a West Virginia plane crash in which her husband was killed.

Mrs. Mary Rita Skasio of Unity Twp., near Latrobe, asked damages in excess of \$5,000. She claimed her husband, John, 34, was fatally injured Jan. 13, 1957, due to negligent operation of the plane.

Skasio and Clyde Hauger, a pilot employed by Latrobe Construction, were killed in the crash of a light plane near Charleston, W. Va., on a trip from Ft. Lauderdale, Fla., to Latrobe.

The suit said Skasio was a guest passenger at the invitation of the construction firm.

Allocate Million For Education

WASHINGTON (AP) — Federal allocations totaling nearly one million dollars have been made to 23 states, Hawaii and the District of Columbia for area vocational education programs.

The vocational programs were authorized by the 1958 National Defense Education Act.

They are to train highly skilled technicians in occupations vital to national defense such as electronics, tool design, aviation and industrial chemistry.

States have to match the federal aid dollar for dollar.

The first allocations announced today by the Office of Education include Pennsylvania, \$96,540.

Dismantle Unused \$11,000 Stand

HARRISBURG (AP)—Workmen have begun dismantling the \$11,000 inaugural stand that wasn't used Tuesday for Gov. Lawrence's

inauguration. Miserable weather conditions sent the inauguration ceremony indoors to the State Farm Show Building.

The outdoor facility at the foot of the main capital building steps included a glass enclosed platform

where the governor and about 40 other official inauguration participants were to have been housed for the oath-taking and review of the parade which was cancelled.

Publicist Settles Suit For \$1,250

NEW CASTLE, Pa. (AP)—A political campaign publicist has agreed to a \$1,250 out-of-court settlement for services during a 1957

campaign. George N. Pennington accepted the settlement Tuesday in his \$2,500 damage suit against Roger W. Roland, executive vice president of the Pennsylvania Manufacturers Assn., and a Lawrence County industrialist.

Pennington claimed Roland hired him to handle the 1957 Republican campaign for Perry L. Reher, a candidate for Lawrence County district attorney, but later refused to pay him the \$2,500.

Details of how the out-of-court agreement was reached were not

disclosed. Pennington said he will donate the money to charity.

Jack Heppinstall, Michigan State trainer who will retire next summer after 45 years of service, figures he has used more than 900 miles of adhesive tape.

20 YORK STREET
GETTYSBURG, PA.

SAYS OUTDOOR FIRE ESCAPES ARE USELESS

HARRISBURG (AP)—Pennsylvania's top building inspector today described outdoor fire escapes on school buildings as useless and more a hazard than a safety factor.

This is the opinion of John Dwyer, chief of the Inspections Bureau of the Labor and Industry Department, who contends that only fire-proofed stairways can do any good in saving lives in a fire.

"The average fire escape outside is of very little or no good at all when a fire breaks out," Dwyer said.

Explains Faults

"They are sometimes hard to get to, not lighted and many times they are not even workable."

And it was for lack of fire-proofed stairways, known as fire wells, that the department ordered 73 schools to either make safety repairs or close their doors.

Two weeks ago the bureau began a crash program of school inspections which resulted in the closing of many schools.

May Appeal Order

"This doesn't at all mean that the children will be shoved out into the cold without any classes," cautioned William L. Batt Jr., labor and industry secretary.

"Each of these schools now may appeal the close order to the State Industrial Board and can continue to operate until the board takes some definite action one way or the other," Batt said.

Of the 73 schools ordered closed.

Admits Now He Wounded Himself

WARREN, Pa. (AP)—A Corry man who first said he was shot by an ungrateful woman motorist has been ordered held for court after admitting he shot himself.

Richard Fairchild, 22, led officers to the gun after his release from the hospital Tuesday.

Fairchild originally claimed he was driving along Route 6 about three miles west of Warren Jan. 12 and came across two women standing by a car with a flat tire.

He said he stopped and fixed the tire. Then he claimed one of the women said: "This is for your trouble," and shot him in the left shoulder with a rifle.

Police charged Fairchild with driving the auto while under suspension. Bond was set at \$300.

he said more than 25 already have notified the department they will appear before the industrial board and state their cases Thursday.

Big Financial Problem

"In each of these 73 cases the cause for the order was that the buildings—all old ones—had open stairways that could act as flues in the event of a fire on a lower floor," Dwyer said.

Dwyer said some of the schools face a big financial problem in adjusting their buildings to safety standards.

He said it would cost about \$1,000 to install temporary fireproofing on open stairways and about \$6,000 to \$10,000 for a permanent fire well.

"We would allow a school to operate after the hearing if it showed us plans for temporary or permanent fireproofing of stairways," Dwyer said.

"But I'm sure the board can't do anything but actually close the schools if the local officials refuse to fireproof or if they claim they haven't the funds to do it."

SUGGEST NEW CABINET POST

HARRISBURG (AP) — Senate committee study today was given a proposal that a \$20,000-a-year post of Cabinet rank be established for supervision of an atomic development regulation in Pennsylvania.

Three Democratic senators submitted a proposal Tuesday asking for the establishment of an office of coordinator of atomic development activities.

A similar proposal was voted down in the Senate during the 1957 Legislature.

The sponsors said the agency would stimulate Pennsylvania participation in a federal plan "to encourage the widespread participation in the development and utilization of atomic energy for peaceful purposes."

The coordinator would confer with various state agencies in coordinating atomic energy development and regulating its use.

The bill (S51) was introduced by Sens. Lane (Washington), Camille (Phila.) and Donolow (Phila.).

Method: Melt butter in 12-inch skillet over low heat; add red cabbage, onion, brown sugar, vinegar and salt; mix well. Add unpeeled apple. Cover and simmer, stirring occasionally, for 20 minutes; apple will take on red color of cabbage. Bury frankfurters in cabbage, cover and simmer 20 minutes longer or until frankfurters are hot through and cabbage as soft as desired; stir cabbage a few times and turn frankfurters over. Makes 4 to 5 servings. If baking apples are used, they should not disintegrate during cooking.

Boil over moderate heat until canberries all pop — about 5 minutes. Continue to cook fairly rapidly, stirring a few times, until apples are soft; watch so as not to scorch because mixture will be thick. Stir in sugar over low heat. Put through food mill or force through a strainer. Makes about 1 cup. Chill before serving.

Method: Put frozen spinach, boiling water and 1/2 teaspoon of the salt in a 1 1/2-quart saucepan. Have heat moderate and turn spinach with a fork occasionally to break up; cook a few minutes longer. Drain, reserving liquid in a measure; add enough milk to spinach liquid to make 1 cup.

Melt butter in a saucepan over low heat; add scallions, cook gently, stirring several times, until golden — about 5 minutes. Stir in flour; add milk mixture, remaining 1/2 teaspoon salt and pepper to taste. Cook and stir over low heat until thickened and bubbly. Add drained spinach; reheat. Makes 4 servings.

Ike Says Mikoyan Ought To Be Sure U.S. Wants Peace

WASHINGTON (AP)—President Eisenhower at his Wednesday press conference said, in a reference to the farewell message he sent to Soviet Deputy Premier Anastas I. Mikoyan, the deputy Russian premier must be sure that America wants peace.

This country is willing to conciliate and negotiate, Eisenhower went on, but the Soviets must understand that the United States simply won't be pushed around. The news conference touched on these other main topics:

CIVIL RIGHTS—As for the bill of Sen. Lyndon B. Johnson (D-Tex.) to create a federal conciliation service to handle civil rights disputes, Eisenhower said he can't see that such a government unit would be fruitful. But he added he is keeping an open mind on the matter.

Eisenhower called again for extension of the life of the Civil Rights Commission, now scheduled to go out of business in September. Johnson's bill provides for such an extension.

INTEGRATION—The federal government is working on and studying the question of what to do about children of U.S. military personnel who are being barred from public schools at Norfolk, Va., and some other places because of controversy over court-ordered mixing of the races in the classrooms.

Eisenhower was asked whether he has any plans to assure those children a public school education. The questioner said Virginia's massive resistance laws have been declared invalid by the courts, but that Gov. J. Lindsay Almond has nevertheless promised to continue the fight for segregation.

Eisenhower said the situation is a very difficult one. He said that of 15,000 children involved in the controversy at Norfolk, for example, about 5,500 are the children of military personnel.

Of those, about 500 are being educated on military reservations.

Seeking Solution
As for the rest, the situation is not so clear, Eisenhower added. Their parents pay education taxes just as all other citizens do, and the federal government is making aid grants in areas where there are government installations.

Three federal departments, Navy, Defense and the Health-Education-Welfare, are working very hard trying to find a solution, the President said.

In response to another question, Eisenhower said he had not at all meant to imply the federal government might shut off aid grants to areas with government installations.

As for Almond's call for continued resistance to integration, Eisenhower said it comes down to this: It appears that the laws are clear, and if that is true it seems to add up to whether a citizen, be he an official or anyone else, is ready to obey the laws of his state and nation.

BUDGET—In comment on Democratic contentions his 77-billion budget is a propaganda document, drafted for political profit, Eisenhower said budgetary schizophrenia must be affecting the critics because they are on all sides of the matter. There has been criticism, he said, that the budget is too large and that it is not large enough.

When you get down to the matter who is using the budget for a political football, Eisenhower added, he wants to assure everyone that it is not.

Eisenhower said he is not running for anything, but is trying to do his best for the United States.

Senate Democratic Leader Lyndon Johnson of Texas, often mentioned as a possibility for his party's 1960 presidential nomination, used the term "propaganda budget" in a Senate speech Tuesday on Eisenhower's spending proposals.

CONTROLS—Eisenhower said he despises economic controls on such things as prices and wages, and certainly doesn't want to see them imposed.

That was his reply when asked about his hint in his economic report Tuesday that controls might be necessary if inflation is not curbed.

FRONDIZI—Eisenhower said it is a great privilege for the United States to have President Arturo Frondizi of Argentina in this country for a visit. The United States is delighted and hopes the visit will lead to better relations between the two nations, Eisenhower added.

NIXON—Eisenhower gave no direct reply when asked about the possibility of Vice President Nixon's visiting Russia next year. But he said anything that publicizes a normal exchange of visits is all to the good. Americans who return from the Soviet Union report they are impressed by a desire by the Russian people for peace. To his mind, Eisenhower said, that holds great hope for us all.

MINIMUM WAGE—Eisenhower gave no direct explanation of why he has not again recommended an increase in the minimum wage. In reply to a question, he said his legislative programs will be going to Congress soon. But, perhaps indicating opposition to a minimum wage hike, Eisenhower added that anything inflationary can almost always be classed as bad.

WON'T TESTIFY IN TV PROBE

NEW YORK (AP)—A grand jury investigating alleged rigging of some television quiz shows will not hear testimony from the producers of the defunct "21" program.

Jack Barry and Dan Enright, producers, and Robert Noah, an associate, refused Tuesday to waive immunity from possible prosecution when called before the jury.

They were excused, and no further appearances were scheduled.

Asst. Dist. Atty. Joseph Stone said the men had been called to testify because they said originally they wanted to cooperate in the probe.

Barry and Enright have consistently denied there was any rigging on "21" or any of their other shows.

NEW YORK (AP)—Composers Walter Piston and Douglas Moore are the winners of the 1958 awards of the Music Critics Circle of New York.

Piston's viola concerto was voted the outstanding orchestral work of the year.

Moore's "The Ballad of Baby Doe" was named the best opera.

CRITIC LIKED "MALICE IN WONDERLAND"

By CHARLES MERCER

NEW YORK (AP)—S. J. Perelman detests clichés. But if he will pardon two, his "Malice in Wonderland" on Omnibus (NBC-TV) grandly played by Keenan Wynn,

was a dandy and a dilly.

In Monday morning papers we called it the best satire on TV in many months. It didn't really require three days' reflection to call it the best satire ever seen on TV.

A hilarious hour of television, based on three Perelman stories, concerned a New York psychoanalyst named Randy Kalbfus who went to the wonderland known as Hollywood and completely mixed up his id and his ego. He was grandly played by Keenan Wynn.

Randy's downfall was largely caused by a statuesquely beautiful movie extra named Audrey Meridew delightfully portrayed by Julie Newmar. She made Randy's slide completely understandable—and prompted one of the most wonderful second act curtain lines ever heard on television. As Randy tottered after the undulating Audrey, he raised his eyes to heaven and said: "Forgive me, Sigmund, for I know not what I do."

The entire cast was superb.

Under the fine direction of James Lee it seemed unlikely that these splendidly grotesque characters really were actors.

Satirized Attitude
But the man at the heart of all this merry matter was Perelman. Like every fine satirist, he is a stern moralist. He sees vanity, egotism, sycophantism and allied disorders of the soul as mortal sins. But instead of inveighing against these human frailties, he laughs at them. "Malice in Wonderland" was not

Ike, Queen May Meet In Canada

WASHINGTON (AP)—President Eisenhower is planning to meet with Britain's Queen Elizabeth during her visit to Canada this summer.

Eisenhower is planning to meet with Britain's Queen Elizabeth during her visit to Canada this summer.

This single program increased television's stature and showed what it can do.

White House press secretary James C. Hagerty said Tuesday that details have not been worked out but that Eisenhower probably will meet the Queen somewhere along the U.S.-Canadian border when she inspects the St. Lawrence Seaway. The Queen and Prince Philip, due in Canada June 18 for a six-week visit, are to attend a dedication of the new seaway June 26-27.

South Carolina Governor Fears National Mediocrity

By AL LANIER

COLUMBIA, S.C. (AP)—Gov. E. F. Hollings took office Tuesday with a promise to help the South fight "a tide which would sweep us into national mediocrity."

Hollings said this state's position on racial segregation and states rights is unwavering and will bend "neither to threats of federal pressure nor to promises of federal aid."

The 37-year-old Charleston attorney, was sworn in by Associate State Supreme Court Justice Lionel K. Legge to succeed outgoing Gov. George Bell Timmerman Jr. Hollings moves up after four years as lieutenant governor.

"Economic Blackmail" Hollings said he is taking office at a time when the South is threatened with "economic blackmail" and when both political parties "are competing to hurl the greatest insult and defamation at our door."

But, he said, "there is today no law and no provision of the Constitution requiring racially integrated schools. Until the Constitution is lawfully amended, my refusal to integrate our people dur-

ing the next four years will not conflict with the oath just taken." Hollings said both Negroes and whites in South Carolina are in "essential agreement" on segregation and that South Carolina has done everything possible to provide Negroes with "the best educational program and the best opportunity to succeed on an individual basis. Left alone, we shall continue to do this."

Methodist Church Reported Growing

BUCK HILL FALLS, Pa. (AP)—The Methodist Church is expanding rapidly, and going deeper in debt as a result.

The Rev. Dr. B. P. Murphy of Philadelphia, executive secretary of church extension, said Tuesday the value of local church property in this country has increased fourfold in the past six years.

But he told a meeting of the Methodist Board of Missions that the resulting debt load is nearly 224 million dollars, a hike of 35 million in the past year.

ALMOND WILL KEEP FIGHTING INTEGRATION

By THE ASSOCIATED PRESS

RICHMOND, Va. (AP) Gov. J. Lindsay Almond Jr. has responded to court rulings knocking out Virginia's chief anti-integration laws with a pledge of unyielding resistance to race mixing in the public schools.

If there was doubt that the administration would pursue massive resistance along some other line, Almond scotched it Tuesday night in a radio-television address.

The people of Virginia "have repeatedly made it crystal clear that they cannot and will not support a system of public education on a racially integrated basis," he said. "I make it equally clear that I cannot and that I will not break faith with them."

Almond's 15-minute speech, his first real comment after Monday's court rulings, was significant also for what was left unsaid.

His closest approach to a specific recommendation was an "urgent request" that private school classes for children from nine closed schools in Norfolk, Charlottesville and Warren County continue without interruption.

Monday's court rulings wiped away the state's school closing law. Almond has no statutory power to keep the nine schools closed.

Four Moonshiners Are Found Guilty

BALTIMORE, Md. (AP)—Four Pennsylvanians, three young men and their uncle, were found guilty Tuesday of possessing and operating a 296-gallon still.

John Robert Joiner, 43, of Sewardstown, the uncle, was sentenced to two years, to be served concurrently with another two-year sentence for a previous whiskey conviction.

Ralph L. Joiner, 20, New Park, was sentenced to six years, also to be served concurrently with a six-year previous whiskey conviction.

Kenneth C. Joiner, 16, also of New Park and now in jail in Pennsylvania, and his brother, Dale, 18, of Laurel, sentenced under the Federal Juvenile Delinquency Act, will be under government supervision until they are 21.

Kenneth will be taken into custody by federal agents on his release from jail.

Johnny Antonelli, San Francisco Giants' southpaw, sponsors a 20-man singles league in his native Rochester, N. Y.

FLIGHT OF MAN INTO SPACE TO BE NEXT MONTH

DES MOINES, Iowa (AP)—The first flight of the X-15 that will start probing space with a man aboard probably will be made sometime in February, Dr. James A. Van Allen, State University of Iowa space scientist, said here Tuesday night.

Van Allen, who directed the designing of the radiation detection equipment aboard the U.S. Explorer satellites, addressed a dinner given by the Des Moines Chamber of Commerce for Iowa legislators. He said he learned of many space plans for this year in a visit to Cape Canaveral, Fla., last week.

Van Allen said a pilot will go into space in the rocket-propelled X-15 within a month or six weeks and will return to earth in this craft.

Will Use Pig He added: "These flights will be of progressively increased length and difficulty. The year

1959 may be the first time that man will go far out into space. "The first man flights will be within about a year to 18 months from now in a space capsule. A major problem we have to solve is how to keep man alive in a cylinder."

Van Allen predicted a pig will be the first animal put into space flight by this country.

Van Allen said plans for two more rockets to probe space as far as the moon or beyond are in the works.

Mike Quinlan led the Air Force Academy football team in scoring in 1958 with eight touchdowns for 48 points.

Lu Gambino of Maryland set a Gator Bowl record against Georgia in 1948 when he gained 175 yards at Jacksonville.

CARLSBURG GETS DEGREE FROM UPSALA

By ANDREW MEISELS
EAST ORANGE, N.J. (AP) — "The fog," Carl Sandburg once wrote, "comes on little cat feet."

Carl Sandburg doesn't. The dynamic 80-year-old poet and writer came in out of the fog Tuesday night to receive an honorary doctor of letters degree from Upsala College.

Then he delivered a forceful speech, read from his works and the works of others and capped the evening with a few songs.

The white-thatched bard spoke of poetry, politics and the people. Of modern poets, Sandburg said: "They ain't doing so good."

He called modern poetry "a variety of cliques, clagues and movements."

Won Pulitzer Prize
Sandburg, who won the Pulitzer Prize in 1940 for his biography of Abraham Lincoln, spoke at length about the Great Emancipator.

He spoke also of the problems raised by the Civil War and of Arkansas Gov. Orval Faubus.

"Before the Civil War, official documents used to read 'the United States are,' the war was fought to enable us to say 'the United States is,'" Sandburg said. "Faubus don't (sic) know the United States 'is' — but he gonna (sic) know."

Wearing his customary black suit and black four-in-hand tie, Sandburg charmed the audience of 2,500 by playing a few folk songs on his guitar.

Asked about the so-called "beat generation," he snapped: "They are neither a generation nor are they beat. They're eatin' regular."

HEAVY TRAFFIC TOWARD CUBA

MIAMI, Fla. — Cubans are streaming home from exile in numbers that have consular officials talking of records.

All that acting consul Oscar Ramirez, 35, can think of today is a bath and bed.

"We are doing business as never before," the Miami man said. "Fees for processing outbound Cubans are running to \$2,000 a day. In the days before Batista fell, daily receipts from the same source were \$100 to \$200."

In addition to expediting the return of Cubans, Ramirez Tuesday was helping about 40 newsmen who planned to take advantage of the revolutionary government offer to fly from Miami today for an eyewitness view of the mass meeting scheduled in the Presidential Palace Square at Havana this afternoon.

Files Suit In Plane Fatality

GREENSBURG, Pa. (AP) — A Westmoreland County widow filed suit for damages today against the Latrobe Construction Co. as the result of a West Virginia plane crash in which her husband was killed.

Mrs. Mary Rita Stasio of Unity Twp., near Latrobe, asked damages in excess of \$5,000. She claimed her husband, John, 34, was fatally injured Jan. 15, 1957, due to negligent operation of the plane.

Stasio and Clyde Hauger, a pilot employed by Latrobe Construction, were killed in the crash of a light plane near Charleston, W. Va., on a trip from Ft. Lauderdale, Fla., to Latrobe.

The suit said Stasio was a guest passenger at the invitation of the construction firm.

Allocate Million For Education

WASHINGTON (AP) — Federal allocations totaling nearly one million dollars have been made to 23 states, Hawaii and the District of Columbia for area vocational education programs.

The vocational programs were authorized by the 1958 National Defense Education Act.

They are to train highly skilled technicians in occupations vital to national defense such as electronics, tool design, aviation and industrial chemistry.

States have to match the federal aid dollar for dollar.

The first allocations announced today by the Office of Education include Pennsylvania, \$96,540.

Dismantle Unused \$11,000 Stand

HARRISBURG (AP)—Workmen have begun dismantling the \$11,000 inaugural stand that wasn't used Tuesday for Gov. Lawrence's

inauguration. Miserable weather conditions sent the inauguration ceremony indoors to the State Farm Show Building.

The outdoor facility at the foot of the main capitol building steps included a glass enclosed platform

where the governor and about 40 other official inauguration participants were to have been housed for the oath-taking and review of the parade which was cancelled.

Publicist Settles Suit For \$1,250

NEW CASTLE, Pa. (AP)—A political campaign publicist has agreed to a \$1,250 out-of-court settlement for services during a 1957

campaign. George N. Pennington accepted the settlement Tuesday in his \$2,500 damage suit against Roger W. Roland, executive vice president of the Pennsylvania Manufacturers Assn., and a Lawrence County industrialist.

Pennington claimed Rowland hired him to handle the 1957 Republican campaign for Perry L. Reher, a candidate for Lawrence County district attorney, but later refused to pay him the \$2,500. Details of how the out-of-court agreement was reached were not

disclosed. Pennington said he will donate the money to charity.

Jack Heppinstall, Michigan State trainer who will retire next summer after 45 years of service, figures he has used more than 900 miles of adhesive tape.

SAYS LAWYERS AREN'T MAKING ENOUGH MONEY

PHILADELPHIA (AP) — This country's lawyers are not making as much money as they should, and they have only themselves to blame, a Mississippi attorney said today.

In an address prepared for the 63rd annual meeting of the Pennsylvania Bar Assn., John C. Satterfield, of Jackson, Miss., cited statistics on the incomes of professional men in recent years to show that lawyers have not kept pace with the national average.

Satterfield is chairman of the American Bar Assn. Committee on Economics of Law Practice.

He told his fellow counsellors the American lawyer's average income increased 58 per cent between 1929 and 1951. This compares with a hike of 167 per cent for physicians and 83 per cent for dentists, he said.

In addition, Satterfield said, a lawyer's overhead now runs 36.7 per cent of his gross income.

NORWALK, Ohio (AP) — Don J. Young Sr., 74, a practicing attorney in Norwalk since 1907 and brother of U.S. Sen. Stephen M. Young (D-Ohio), died Tuesday.

Governor Cites Heroism Of 2 Men

HARRISBURG (AP) — Gov. Leader, in one of his last official acts, Monday cited the heroism of two men who rescued a woman from the side of a cliff near Sunbury.

Leader commended Robert Rice, Sunbury, and Sgt. Alex A. Rudville of the Selinsgrove state police barracks, for rescuing the woman from a small ledge, about 75 feet above the ground.

Mrs. Helen Morehouse, Harrisburg, a patient in a private institution for the emotionally disturbed, fell to the ledge after she became lost on the institution grounds and spent the night huddled in the cold.

The men acted without regard for their personal safety in rescuing the woman, the citation said.

INSTALL NEW C OF C PREXY

Merle Ohler was installed as president of the Taneytown Chamber of Commerce at the chamber's regular meeting Monday in Taney Inn. Raymond Perry and Carroll Wentz were installed as first and second vice presidents, respectively; Robert Feaser as secretary and Murray Baumgardner, treasurer.

President Ohler, in accepting the office, noted that he and three other members present had also been present at the first meeting of the chamber 30 years ago. The others are Harold Mehrling, Norman Baumgardner and Curtis Bowers.

Arch Carpenter reported for the roads committee that a section of the Harney Road has been graded and is to be surfaced as soon as weather permits. He said he is hopeful that the road will be completed to the Pennsylvania line this year.

Merwyn Fuss, retiring president, reported that a housing development will be started shortly at the fairgrounds site. This, he said, will be a real asset to the community and will give present commuters an opportunity to take up residence in Taneytown.

Fuss, Charles Arnold and the executive committee were named by the president as a committee to study the chamber's constitution and bylaws and to present a revised draft at a later meeting.

Catholics Send Priest To Moscow

NEW YORK (AP) — The Rev. Louis A. Dion was en route to Moscow today to become apostolic administrator to American Catholics there.

He is replacing the Rev. Georges L. Bissonette, of Central Falls, R.I., a fellow member of the Assumption Order who was expelled from the Soviet capital in 1955.

Father Dion, 46, a native of Worcester, Mass., obtained a visa last month after three years of trying. He had been serving as registrar of Assumption College in Worcester.

Many Bills To Lower Voting Age

HARRISBURG (AP) — A proposal to allow persons 18 years of age or older to vote was among the first introduced Tuesday in the state Senate.

The measure to amend the state Constitution and allow the minimum age for voting to be lowered from 21 to 18 years was introduced by four Republican senators.

A similar bill passed the 1957 Legislature, but under state law constitutional amendments must be passed by two successive Legislatures and be approved by a referendum vote.

CALL GIRLS DISCUSSED ON TV SHOW

By DICK VALERIANI
NEW YORK (AP) — Do call girls play an important role in helping big corporations swing business deals.

No, say businessmen. Yes — to a degree — says the city's chief magistrate.

A Senate committee should investigate, says the AFL-CIO. We'll investigate, says the city police department.

The new twist in the world's

oldest profession got a thorough airing Monday night on the CBS radio program, "The Business of Sex," narrated by Edward R. Murrow.

Unidentified speakers from the business world and the demimonde told of company policies that include keeping prostitutes on public relations payrolls or paying them monthly fees for dealings with customers.

As spokesmen from the top ranks of big business generally denied the sex-for-sales practice, Police Commissioner Stephen P. Kennedy ordered an investigation. **Won't Tolerate**

Mayor Robert F. Wagner's office said: "We will not tolerate such scandal and vice in the city." Kennedy, acknowledging the difficulty of detecting call girl set-

ups, appealed for any information that might aid the probe. He promised to protect informants but threatened to prosecute any businessmen found employing prostitutes.

A promise not to disclose names had been made to participants on the Monday program by CBS officials, who refused Tuesday to identify speakers to police.

No One Going To Jail

Deputy Police Commissioner James R. Kennedy said the network employees "fully cooperated to the limit they could" and that he respected their right to refuse. "No one is going to jail here," he said.

This was an apparent reference to Marie Torre, New York Herald Tribune television columnist who recently served a 10-day jail sen-

LEADER RESTS AT YORK FARM IN NEW ROLE

YORK, Pa. (AP) — George M. Leader resumed the role of a private citizen today after four years as the chief executive of Pennsylvania.

Today the transition was complete. The former governor rested at his farm home here after unobtrusively shedding the mantle of

tence for contempt of court for refusing to divulge a news source in a court case.

office and putting in an appearance at the Executive Mansion as a visitor at a dinner given by Gov. Lawrence Tuesday night.

Leader was one of four former chief executives at the dinner. Other ex-governors at the dinner were Edward Martin, George H. Earle and James H. Duff.

The Leaders have remodeled an old farmhouse near Dover, about a quarter of a mile from the home in which they lived before he was elected governor a little more than four years ago.

In Private School

Moving vans already have taken the family's personal belongings from the Executive Mansion in Harrisburg and the summer home at Indiantown Gap Military Reservation.

The belongings have been de-

livered to the farm house and the Leader's two older children have left the Harrisburg Academy and enrolled in a private school at York.

The two younger children aren't in school yet.

Leader, now 41, has disclosed plans of opening a business here about Feb. 1. He would not go into details of the business but it is expected to deal with industrial development.

STUDY PLAN TO WIDEN SEVEN PIKE TUNNELS

HARRISBURG (AP)—A study, ordered with an eye toward federal aid, was under way today on the possibility of widening seven tunnels on the western half of the Pennsylvania Turnpike.

Michael Baker Jr. Inc., Rochester, Pa., was ordered Wednesday to make the study after a meeting of the Pennsylvania Turnpike Commission.

The study was requested by the federal government before it will consider taking part in plans to widen the tunnels to four lanes. Built 20 years ago, the tunnels have become bottlenecks due to the growth of traffic on the system, the commission explained.

The commission also directed the engineering firm to study the possibility of constructing by-pass roads over the mountains to alleviate tunnel tie-ups.

At the same time the commission appointed Robert A. Farley of Scranton as its chief engineer in what was described as a reorganization of engineering and maintenance departments in the interest of economy.

Farley, 44, recently resigned from the State Highways Department where he served as chief engineer for two years.

WILL TRY TO CASH CHECK 28 YEARS OLD

GLENDALF, Calif. (AP)—Actor Chester Morris may find it more trouble than it's worth to cash a 28-year-old paycheck for \$600 that turned up in a Glendale house.

The new owner of the house found the check Tuesday in a desk. It was made out by Metro-Goldwyn-Mayer studio in 1930 and had not been endorsed.

Morris, who is acting in San Francisco, said he intended to try to cash it.

"I don't remember," he said, "but I might have worked awfully hard for that money."

Bank Won't Cash It

He said he never saw his pay checks, which went to his business manager. He had never heard of the previous owner of the house, Mrs. Halie C. Smith.

The bank on which the check is drawn said it doesn't cash checks more than six months old and the only way Morris could collect on it was to get MGM to write a new one.

MGM cashier James Heagy said it would take a lot of research to determine whether the studio owes Morris anything. He said it was possible a duplicate check was issued.

Glendale police said they would give the check to Morris if he wants it.

Space Pilots Must Have Experience

WASHINGTON (AP)—Space pilots who will man the Dyna-Soar—the most advanced weapon system under development today—will be chosen because of their experience and not their age.

Planes official publication of the Aircraft Industries Assn., says the pilots selected for the initial flight on the Dyna-Soar—a manned boost-glide vehicle with orbital flight potential—will be approximately five feet ten, and weigh between 150 and 155 pounds. Their training will include being whirled in huge centrifuges and making simulated space flights with many of the expected conditions duplicated.

Says Take Photos Of Topsy Drivers

COHASSET, Mass. (AP)—Police Chief Hector J. Pelletier, who is also secretary-treasurer of the Massachusetts Chiefs of Police Assn., has a novel approach to the tipsy driver problem.

Pictures should be taken of them at the time of their arrest, Chief Pelletier says. The photos, he notes, would be admissible in court as evidence.

"Maybe if these drunken operators really see what they look like," the chief says, "they will think twice before taking the wheel of a car."

File To Change Soviet Names

PHOENIX, Ariz. (AP)—George Pravda and his wife, Joanna, filed a court petition to change their last name to Prav. Pravda means "truth" in Russian but it also is the name of an official newspaper of the Soviet Union.

They said they wanted to change their name because Pravda is known as an organ of Communist propaganda and therefore the name causes them embarrassment. The court took the petition under consideration.

EYE ONE THE FUTURE

CORDELL, Okla. (AP)—Eighty-nine-year-old Bill Aachte has bought a new spinet piano for personal use.

BIG JOB—William L. Mitchell, 58, a career federal worker, is the new head of the Social Security Administration. He will direct the largest social insurance and social welfare operation of its kind in the world.

TO REPORT ON SCHOOL PLANS ON HAZARDS

HARRISBURG (AP)—Representatives of more than 150 schools came here today to outline what action they intend taking rather than have their school buildings closed as fire hazards.

The three-member industrial board headed by William L. Barr Jr., labor and industry secretary, will make final decisions on whether the schools shall obey orders to close issued during the last two weeks by the department.

"We have no idea what the final outcome will be but there is some possibility the plans of some of the school officials won't meet with requirements of the board," Barr said.

Seventy-three Got Orders
In such cases, he noted, the schools will be partially or fully closed as fire hazards.

A total of 73 schools have been given orders to close either all or part of their buildings or make necessary changes to comply with fire safety regulations.

In each case the schools were given the close orders because they had open stairways in the buildings.

The department said that under present regulations all school buildings will have to contain fire wells—fireproofed stairways.

Governor Sends Names To Senate

HARRISBURG (AP)—Gov. Lawrence Tuesday sent these nominations to the Senate for approval: Board of Trustees, Pennsylvania State University: Charles T. Donds, Englewood, N. J.; Richardson Dilworth, mayor of Philadelphia; Joseph A. McDonough, Philadelphia; Miss Mary Jane Wyland, State College.

Justice of the peace: Mrs. Catherine Murphy, Sybertsville, for Sugarloaf Twp., Luzerne County.

Public Service Institute Board: Dr. John H. Ferguson, outgoing state secretary of administration, and budget secretary, State College.

Alderman: Hyman H. Wagner, for the 4th ward in Hazleton. All were referred to committee.

Minute Photo Laid With Cornerstone

INDIANAPOLIS, Ind. (AP)—The cornerstone of a new wing of the Missions Building in Indianapolis contains an actual photograph of the cornerstone-laying ceremony itself.

The picture was taken with a camera that develops its pictures on the spot and was placed in the cornerstone fresh from the developer.

The new wing of the Missions Building, owned by the International Convention of Christian Churches "Disciples of Christ," will house the denomination's new headquarters offices.

Florida Has Long Racing Seasons

MIAMI (AP)—Florida has a long racing season which takes in three major tracks around Miami and a minor one at Oldsmar on the west coast near Tampa.

The racing opened Thanksgiving Day at Tropical Park in Coral Gables, then heads for Hialeah on Jan. 16. After that, meeting, Gulfstream Park at Hallandale opens March 4 and runs until April 2. Sunshine Park at Oldsmar runs 32 days from Jan. 23 through March 24.

Only Cuts Corners In Mowing Lawn

PONCA CITY, Okla. (AP)—Harold Kanady has solved his grass cutting problem. He has rigged up his power mower to a rope that is tied to an upright pipe. The mower cuts in circles and as it revolves around the pipe the rope shortens, leaving him only four small corners to cut in the usual way.

COLLEGE BOWL QUIZ PROGRAM ON TV LAUDED

By CHARLES MERCER
NEW YORK (AP)—Although I never thought it would happen, I've found myself thoroughly enjoying a television quiz show.

It is "G-E College Bowl"—CBS-TV, Sundays, 5 p.m., EST—in which teams of students from two colleges compete against each other in the area of information and knowledge.

There's no hokum about the program. Panel moderator Allen Ludden runs a forthright show. Each week's winning team receives a \$1,500 scholarship for its school from the sponsor—and goes on to compete against another college the next week. The losing team gets a \$500 scholarship for its school.

Use Researcher
What I enjoy most about the program is watching the faces and reactions of the kids. I also enjoy observing how much purely academic information I've forgotten since I was in college 20 years ago.

Ludden told me the other day that he requires a variety of questions—involving not only specific recall but relating information to reasoning powers. The questions are made up by a New York researcher, Nancy Forbes.

Ludden, author of two books on problems of the younger generation, presided over the radio ancestor of television's "College Bowl."

The Basic Point
Enthusiasm for the program among colleges and universities is tremendous, he says. As far as he knows the only college which has declined to participate is Harvard. He does not know why.

Probably closer to the basic point of the program than my own remarks was that of a high school senior who is glued to it every Sunday. A husky type inclined to spurn books in favor of athletics—to his own regret as he seeks admission to college—he said: "There ought to be more of this sort of thing. It makes you see the book boys aren't squares at all."

BOYLE WRITES ASSEMBLYMEN

YORK, Pa. (AP)—Dist. Atty. Frank B. Boyle, an advocate of stronger laws prohibiting sales on Sunday, is taking his case to the Legislature.

In identical letters Wednesday to the 260 members of the General Assembly, Boyle said penalties need to be increased "so that continuous violations can be dealt with by severe court action with the possibility of enforced closings."

The District Attorney also said he has received support in an earlier move toward clarifying the law and making it more enforceable. He said he received a letter from John E. Means, managing director of the Pennsylvania Retailers Assn. Inc., which said:

"We are strongly in accord with your view that the present law should be clarified and we also feel that it should be considerably strengthened in order to promote more uniform and more effective enforcement throughout the Commonwealth."

Science May Have New Tranquilizer

NEW HAVEN, Conn. (AP)—Science may soon develop a tranquilizer-type drug which will relieve mental depression, Yale psychiatrists say—but don't look for a drug which will alleviate human grief.

Dr. Daniel Freedman, assistant professor of psychiatry, said while there is no drug at present which is entirely proven as a depression-killer, there are many new drugs which show great promise.

Instead of a "human-grief drug," Freedman hopes another type of drug will emerge.

"I would like very much to see one which would help learning," he added.

Forces Medicine On Wrong Person

CHING SHUI, Formosa (AP)—The Rev. Francis X. Keelan of Cambridge, Mass., a Maryknoll missionary in Formosa, tells this one on himself.

A mission handyman came to him and asked if he had anything for a sore throat. The priest found a bottle of medicine and poured a tablespoon of it down the man's throat.

"He quivered and grimaced," says Father Keelan. "When his power of speech finally returned I asked him what he thought of the medicine. 'It's very good,' he gasped. 'But I wanted it for my grandmother.'"

MATCH UP?

WAYNE, N. J. (AP)—Miss Laura Bonitz is out on the golf course almost every day trying to match her score with her age.

"It's hard," she said. "The older I get, the worse I get." Miss Bonitz, 80, shoots in the very low 100s for her 18-hole stints.

South Carolina Governor Fears National Mediocrity

By AL LANIER

COLUMBIA, S.C. (AP)—Gov. E. F. Hollings took office Tuesday with a promise to help the South fight "a tide which would sweep us into national mediocrity."

Hollings said this state's position on racial segregation and states rights is unwavering and will bend "neither to threats of federal pressure nor to promises of federal aid."

The 37-year-old Charleston attorney, was sworn in by Associate State Supreme Court Justice Lionel K. Legge to succeed outgoing Gov. George Bell Timmerman Jr. Hollings moves up after four years as lieutenant governor.

"Economic Blackmail"

Hollings said he is taking office at a time when the South is threatened with "economic blackmail" and when both political parties "are competing to hurl the greatest insult and defamation at our door."

But, he said, "there is today no law and no provision of the Constitution requiring racially integrated schools. Until the Constitution is lawfully amended, my refusal to integrate our people dur-

ing the next four years will not conflict with the oath just taken."

Hollings said both Negroes and whites in South Carolina are in "essential agreement" on segregation and that South Carolina has done everything possible to provide Negroes with "the best educational program and the best opportunity to succeed on an individual basis. Left alone, we shall continue to do this."

Methodist Church Reported Growing

BUCK HILL FALLS, Pa. (AP)—The Methodist Church is expanding rapidly, and going deeper in debt as a result.

The Rev. Dr. B. P. Murphy of Philadelphia, executive secretary of church extension, said Tuesday the value of local church property in this country has increased fourfold in the past six years.

But he told a meeting of the Methodist Board of Missions that the resulting debt load is nearly 224 million dollars, a hike of 35 million in the past year.

ALMOND WILL KEEP FIGHTING INTEGRATION

By THE ASSOCIATED PRESS

RICHMOND, Va. (AP) Gov. J. Lindsay Almond Jr. has responded to court rulings knocking out Virginia's chief anti-integration laws with a pledge of unyielding resistance to race mixing in the public schools.

If there was doubt that the administration would pursue massive resistance along some other line, Almond scotched it Tuesday night in a radio-television address.

The people of Virginia "have repeatedly made it crystal clear that they cannot and will not support a system of public education on a racially integrated basis," he said. "I make it equally clear that I cannot and that I will not break faith with them."

Significant Omissions

Almond's 15-minute speech, his first real comment after Monday's court rulings, was significant also for what was left unsaid.

His closest approach to a specific recommendation was an "urgent request" that private school classes for children from nine closed schools in Norfolk, Charlottesville and Warren County continue without interruption.

Monday's court rulings wiped away the state's school closing law. Almond has no statutory power to keep the nine schools closed.

Four Moonshiners Are Found Guilty

BALTIMORE, Md. (AP)—Four Pennsylvanians, three young men and their uncle, were found guilty Tuesday of possessing and operating a 296-gallon still.

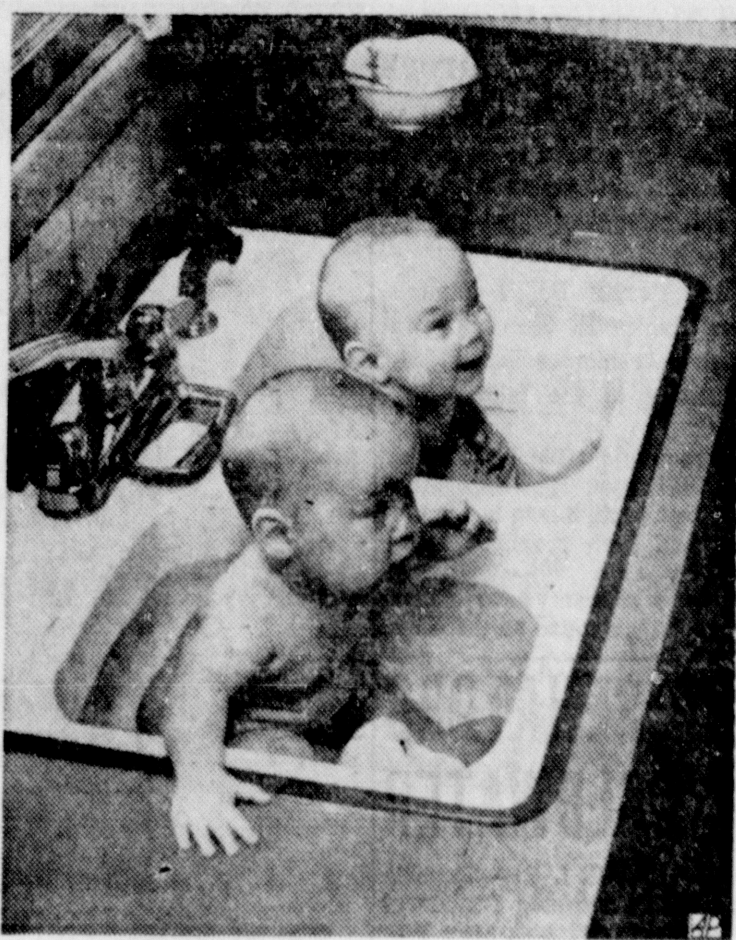

John Robert Joiner, 43, of Stewartstown, the uncle, was sentenced to two years, to be served concurrently with another two-year sentence for a previous whisky conviction.

Ralph L. Joiner, 20, New Park, was sentenced to six years, also to be served concurrently with a six-year previous whisky conviction.

Kenneth C. Joiner, 16, also of New Park and now in jail in Pennsylvania, and his brother, Dale, 18, of Laurel, sentenced under the Federal Juvenile Delinquents Act, will be under government supervision until they are 21.

Kenneth will be taken into custody by federal agents on his release from jail.

FLIGHT OF MAN INTO SPACE TO BE NEXT MONTH

DES MOINES, Iowa (AP)—The first flight of the X15 that will start probing space with a man aboard probably will be made sometime in February, Dr. James A. Van Allen, State University of Iowa space scientist, said here Tuesday night.

Van Allen, who directed the designing of the radiation detection equipment aboard the U.S. Explorer satellites, addressed a dinner given by the Des Moines Chamber of Commerce for Iowa legislators. He said he learned of many space plans for this year in a visit to Cape Canaveral, Fla., last week.

Van Allen said a pilot will go into space in the rocket propelled X15 within a month or six weeks and will return to earth in this craft.

Will Use Pig

He added: "These flights will be of progressively increased length and difficulty. The year

1959 may be the first time that man will go far out into space.

"The first man flights will be within about a year to 18 months from now in a space capsule. A major problem we have to solve is how to keep man alive in a cylinder."

Van Allen predicted a pig will be the first animal put into space flight by this country.

Van Allen said plans for two

more rockets to probe space as far as the moon or beyond are in the works.

Mike Quinlan led the Air Force Academy football team in scoring in 1958 with eight touchdowns for 48 points.

Lu Gambino of Maryland set a Gator Bowl record against Georgia in 1948 when he gained 175 yards at Jacksonville.

CHORES HELP TRAIN YOUTH FOR MANHOOD

By VIVIAN BROWN

Take advantage of your little boy's ten to be a man by giving him some large chores to do. It will be one way to put over important points like safety and home care.

Most little fellows grow up with small knowledge of how their home operates. That's why so many young husbands flounder at the shock of maintaining a home.

In these days of help shortage, every good husband should have a basic knowledge of plumbing, electricity and carpentry for it is handy in emergencies.

Chores for Junior

A small boy can help with mopping, vacuuming, window washing and even dish washing, small chores that will acquaint him with the home and it's upkeep. It shouldn't make a sissy out of him if he engages in sports, also.

Dad can teach his boy a few things about the home that may save his life some day. In 1957 more than 7,100 children were killed in home accidents and there were 150 non-fatal accidents for every fatal one.

Things a boy may be taught include:

How to change a fuse and dangers connected with certain electrical wires. Boys who are curious about wall sockets should be shown the positive and negative wires, "the hot line" as electricians refer to it. Once he understands, he may steer clear of it.

Tell of Dangers

He should be instructed, too, about the dangers of water and electricity, and electrocution that may result from this combination, particularly stepping into a flooded cellar and turning on the electric switch.

Dangers connected with power tools and mowers should be explained. Datto how to handle down articles in the event of strong winds, and why.

A young child should be taught about animals and snakes, particularly if he lives in the country. He shouldn't fear those that can't hurt him and serve a useful purpose in the world of nature.

May Try Atomic Test Underground

WASHINGTON (AP) — The United States might touch off a peaceful use underground atomic explosion next year, even if it still isn't making atomic weapons tests.

Chairman John McCone of the Atomic Energy Commission told a news conference Wednesday this country could be ready for such a test explosion by late summer but would delay it at least until next year.

He said this country is under no injunction to forego underground blasts to see how feasible they would be for such things as carving out harbors and tapping new sources of oil.

McCone indicated this would hold true although the United States has said it will not conduct weapons tests for a year from last October if the Soviet Union did not test during the same period.

Bungling Burglars Miss Money In Bank

BLAINE, Ky. (AP) — Weekend burglars, frustrated after what obviously had been considerable effort to break open the vault in the Bank of Blaine, took only a box of the cashier's cigars and some cigarettes. They overlooked a \$10 bill which an absent-minded customer had left on a counter and which forgetful bank officials had failed to put in the vault.

He should learn, too, how to avoid animals until he has sized them up.

How To Be Host

In these days of traveling fathers, the mother is offered an opportunity to show a little love. One mother makes each little boy take over and pay "daddy" when the man of the house is away. In this role he learns to pull back dining chairs for his sisters, to pass a tray now and then, to light the dinner candles.

When company comes, he greets them at the door, takes hats and coats. And don't think he'll look silly bowing to his elders when he is a small child. Manners of that sort are dying out, one reason why so many nice little boys grow up to be big bores.

"ALFALFA" IS FATALLY SHOT IN ARGUMENT

SAN FERNANDO, Calif. (AP) — Actor Carl (Alfalfa) Switzer, 33—a freckle-faced, wide-eyed movie star as a boy—was shot to death Wednesday night. Police said the shooting had occurred during an argument with another man over money.

Switzer was a favorite of moviegoers a generation ago when he appeared in "Our Gang" and "Regular Fellers" comedies. He became known again with a reissue of the films to television under the title "The Little Rascals."

But in recent years his movie parts had been minor, and he worked as a bartender and hunting guide when not acting. He realized nothing from reissue of the old films.

Went After Loan

Police said Switzer had gone to the home of a friend, M.S. Sultz, 32, Wednesday night in an effort to collect a \$50 loan.

Detectives Louis Bell and Ernest Johnson said Sultz told them that an argument had developed and Switzer hit him on the head with a clock. Sultz got a gun, and it fired harmlessly while they struggled, Sultz said. Switzer drew a knife, and Sultz shot him in the abdomen the latter said.

Some of Switzer's pictures included "Too Many Parents," "Wild and Woolly," and "Mrs. Wiggs of the Cabbage Patch."

Lions Club Takes Rainmaker's Job

LAS CRUCES, N. M. (AP) — This Southwestern New Mexico town doesn't need to hire professional rainmakers, the Lions Club of the community takes care of the problem adequately.

An annual Cotton Carnival which the club holds to raise funds has been rained out the past three years. Even a change of dates hasn't helped.

Oddly enough the dates selected usually come during cotton picking season and the wet weather at this time of the year doesn't make the cotton farmer very happy.

Ed Murrow Won't Disclose Sources

NEW YORK (AP) — Edward R. Murrow has refused to disclose to police the sources of his radio broadcast linking big business with call girls.

First Deputy Police Commissioner James R. Kennedy spent less than 10 minutes with Murrow Wednesday in the latter's CBS office.

Murrow said after his Monday night CBS show, "The Business of Sex," that participants in the program had been promised anonymity.

Business sources have denied the allegations made on the show.

GOP SENATORS OK GOLDWATER

WASHINGTON (AP) — Republican senators accepted Sen. Barry Goldwater (R-Ariz.) as their 1959-60 campaign chairman Wednesday after opposition from self-styled liberals among them had wilted.

Sen. Leverett Saltonstall (Mass.), chairman of the conference of all Republican senators, said the group had given unanimous ratification to his appointment of Goldwater to head the campaign committee.

Saltonstall also named these other members:

Sens. Alexander Wiley (Wis.); Homer E. Capehart (Ind.); Frank Carlson (Kan.); Wallace F. Bennett (Utah); Prescott Bush (Conn.); J. Glenn Beall (Md.); and Norris Cotton (N.H.).

Sen. John Sherman Cooper (Ky.) had led the opposition to Goldwater. He had contended publicly that selection of the Arizona might invite Democratic allegations that Republicans are anti-labor. Goldwater says he is not anti-labor at all.

DALLAS, Tex. (AP) — Doug Harris was bragging today about how tough his son can be.

The son — Timmy Ray, aged 15 months — had picked up a garter snake that promptly curled around the boy's arm.

Doug stammered a warning.

Timmy Ray gurgled, patted the snake, then bent over and bit it in two.

CHORES HELP TRAIN YOUTH FOR MANHOOD

By VIVIAN BROWN

Take advantage of your little boy's yen to be a man by giving him some large chores to do. It will be one way to put over important points like safety and home care.

Most little fellows grow up with small knowledge of how their home operates. That's why so many young husbands flinch at the shock of maintaining a home. In these days of help shortage, every good husband should have a basic knowledge of plumbing, electricity and carpentry for it is handy in emergencies.

Chores For Junior

A small boy can help with mopping, vacuuming, window washing and even dish washing, small chores that will acquaint him with the home and its upkeep. It shouldn't make a sissy out of him if he engages in sports, also.

Dad can teach his boy a few things about the home that may save his life some day. In 1957 more than 7,100 children were killed in home accidents, and there were 150 non-fatal accidents for every fatal one.

Things a boy may be taught include:

How to change a fuse and dangers connected with certain electrical wires. Boys who are curious about wall sockets should be shown the positive and negative wires, "the hot line" as electricians refer to it. Once he understands, he may steer clear of it.

Tell of Dangers

He should be instructed, too, about the dangers of water and electricity, and electrocution that may result from this combination, particularly stepping into a flooded cellar and turning on the electric switch.

Dangers connected with power tools and mowers should be explained. Ditto how to handle down articles in the event of strong winds, and why.

A young child should be taught about animals and snakes, particularly if he lives in the country. He shouldn't fear those that can't hurt him and serve a useful purpose in the world of nature.

May Try Atomic Test Underground

WASHINGTON (AP) — The United States might touch off a peaceful use underground atomic explosion next year, even if it still isn't making atomic weapons tests.

Chairman John McCone of the Atomic Energy Commission told a news conference Wednesday this country could be ready for such a test explosion by late summer but would delay it at least until next year.

He said this country is under no injunction to forego underground blasts to see how feasible they would be for such things as carving out harbors and tapping new sources of oil.

McCone indicated this would hold true although the United States has said it will not conduct weapons tests for a year from last October if the Soviet Union did not test during the same period.

STUDY PLAN TO WIDEN SEVEN PIKE TUNNELS

HARRISBURG (AP)—A study, ordered with an eye toward federal aid, was under way today on the possibility of widening seven tunnels on the western half of the Pennsylvania Turnpike.

Michael Baker Jr. Inc., Rochester, Pa., was ordered Wednesday to make the study after a meeting of the Pennsylvania Turnpike Commission.

The study was requested by the federal government before it will consider taking part in plans to widen the tunnels to four lanes. Built 20 years ago, the tunnels have become bottlenecks due to the growth of traffic on the system, the commission explained.

The commission also directed the engineering firm to study the possibility of constructing by-pass roads over the mountains to alleviate tunnel tie-ups.

At the same time the commission appointed Robert A. Farley of Scranton as its chief engineer in what was described as a reorganization of engineering and maintenance departments in the interest of economy.

Farley, 44, recently resigned from the State Highways Department where he served as chief engineer for two years.

WILL TRY TO CASH CHECK 28 YEARS OLD

GLENDALE, Calif. (AP)—Actor Chester Morris may find it more trouble than it's worth to cash a 28-year-old paycheck for \$660 that turned up in a Glendale house.

The new owner of the house found the check Tuesday in a desk. It was made out by Metro-Goldwyn-Mayer studio in 1930 and had not been endorsed.

Morris, who is acting in San Francisco, said he intended to try to cash it.

"I don't remember," he said, "but I might have worked awfully hard for that money."

Bank Won't Cash It

He said he never saw his pay checks, which went to his business manager. He had never heard of the previous owner of the house, Mrs. Halie C. Smith.

The bank on which the check is drawn said it doesn't cash checks more than six months old and the only way Morris could collect on it was to get MGM to write a new one.

MGM cashier James Heagy said it would take a lot of research to determine whether the studio owes Morris anything. He said it was possible a duplicate check was issued.

Glendale police said they would give the check to Morris if he wants it.

Space Pilots Must Have Experience

WASHINGTON (AP)—Space pilots who will man the Dyna-Soar—the most advanced weapon system under development today—will be chosen because of their experience and not their age.

Planes, official publication of the Aircraft Industries Assn., says the pilots selected for the initial flight on the Dyna-Soar—a manned boost-glider vehicle with orbital flight potential—will be approximately five feet ten, and weigh between 150 and 155 pounds. Their training will include being whirled in huge centrifuges and making simulated space flights with many of the expected conditions duplicated.

Says Take Photos Of Tippy Drivers

COHASSET, Mass. (AP)—Police Chief Hector J. Pelletier, who is also secretary-treasurer of the Massachusetts Chiefs of Police Assn., has a novel approach to the tippy driver problem.

Pictures should be taken of them at the time of their arrest, Chief Pelletier says. The photos, he notes, would be admissible in court as evidence.

"Maybe if these drunken operators really see what they look like," the chief says, "they will think twice before taking the wheel of a car."

File To Change Soviet Names

PHOENIX, Ariz. (AP)—George Pravda and his wife, Joanna, filed a court petition to change their last name to Prav. Pravda means "truth" in Russian but it also is the name of an official newspaper of the Soviet Union.

They said they wanted to change their name because Pravda is known as an organ of Communist propaganda and therefore the name causes them embarrassment. The court took the petition under consideration.

COLLEGE BOWL QUIZ PROGRAM ON TV LAUDED

By CHARLES MERCER
NEW YORK (AP)—Although I never thought it would happen, I've found myself thoroughly enjoying a television quiz show.

It is "G-E College Bowl"—CBS-TV, Sundays, 5 p.m., EST—in which teams of students from two colleges compete against each other in the area of information and knowledge.

There's no hokum about the program. Panel moderator Allen Ludden runs a forthright show. Each week's winning team receives a \$1,500 scholarship for its school from the sponsor—and goes on to compete against another college the next week. The losing team gets a \$500 scholarship for its school.

Use Researcher
What I enjoy most about the program is watching the faces and reactions of the kids. I also enjoy observing how much purely academic information I've forgotten since I was in college 20 years ago.

Ludden told me the other day that he requires a variety of questions—involving not only specific recall but relating information to reasoning powers. The questions are made up by a New York researcher, Nancy Fobes.

Ludden, author of two books on problems of the younger generation, presided over the radio ancestor of television's "College Bowl."

The Basic Point
Enthusiasm for the program among colleges and universities is tremendous, he says. As far as he knows the only college which has declined to participate is Harvard. He does not know why.

Probably closer to the basic point of the program than my own remarks was that of a high school senior who is glued to it every Sunday. A husky type inclined to spurn books in favor of athletics—to his own regret as he seeks admission to college—he said: "There ought to be more of this sort of thing. It makes you see the book boys aren't squares at all."

BOYLE WRITES ASSEMBLYMEN

YORK, Pa. (AP)—Dist. Atty. Frank B. Boyle, an advocate of stronger laws prohibiting sales on Sunday, is taking his case to the Legislators.

In identical letters Wednesday to the 260 members of the General Assembly, Boyle said penalties need to be increased "so that continuous violations can be dealt with by severe court action with the possibility of enforced closings."

The District Attorney also said he has received support in an earlier move toward clarifying the law and making it more enforceable. He said he received a letter from John E. Means, managing director of the Pennsylvania Retailers Assn. Inc., which said:

"We are strongly in accord with your view that the present law should be clarified and we also feel that it should be considerably strengthened in order to promote more uniform and more effective enforcement throughout the Commonwealth."

Science May Have New Tranquilizer

NEW HAVEN, Conn. (AP)—Science may soon develop a tranquilizer-type drug which will relieve mental depression, Yale psychiatrists say—but don't look for a drug which will alleviate human grief.

Dr. Daniel Freedman, assistant professor of psychiatry, said while there is no drug at present which is entirely proven as a depression-killer, there are many new drugs which show great promise. Instead of a "human-grief drug," Freedman hopes another type of drug will emerge.

"I would like very much to see one which would help learning," he added.

Forces Medicine On Wrong Person

CHING SHUI, Formosa (AP)—The Rev. Francis X. Keelan of Cambridge, Mass., a Maryknoll missionary in Formosa, tells this one on himself.

A mission handyman came to him and asked if he had anything for a sore throat. The priest found a bottle of medicine and poured a tablespoon of it down the man's throat.

"He quivered and grimaced," says Father Keelan. "When his power of speech finally returned I asked him what he thought of the medicine. 'It's very good,' he gasped. 'But I wanted it for my grandmother.'"

MATCH UP?

WAYNE, N. J. (AP)—Miss Laura Bonitz is out on the golf course almost every day trying to match her score with her age.

"It's hard," she said. "The older I get, the worse I get. 'Miss Bonitz, 80, shoots in the very low 100s for her 18-hole stints."

When Hunting Male Animal, Adopt Proper Feline Manner

By VIVIAN BROWN
Associated Press Beauty Editor
NEW YORK (AP) — Purr like a kitten and perambulate like a tigress, if you'd attract the male animal, girls.

That's the word from a connoisseur of women, Fernando Lamas, Latin-American star of stage and screen. He should know, for he has starred with some of the world's most exciting actresses.

"Women may be classified as animal, vegetable or mineral," laughs the popular Argentinian. "But it is true that the ones we like most fall into the animal kingdom realm, and are usually cat-like."

Sophia, Feline Type
"There are all types of cats though," he adds. "Sophia Loren is definitely the feline type. She is like a tigress, undulating, soft and shakes her hips gracefully with an elastic rhythm that is smooth and not wriggling. Her eyes are cat-like, too."

Another type of woman handles herself like a Siamese cat.

"My wife (Arlene Dahl) is like that," he says. "She is soft, graceful, cuddly and beautiful."

"Then there are the wildcats. Spanish dancer Carmen Amaya is typical of that type. She is unexpected in her movements, never dances the same way twice, and you really never know, like a cat, which way she is going to jump," he says.

Brigitte, Panther Type
The panther type may be likened to French star, Brigitte Bardot. "But a greyish panther, not a dark type," Lamas says explaining.

"She has a small face, striking eyes, a round head and prominent cheekbones, like the panther. She is willowy, smooth and graceful, not over developed, yet has tremendous sexual attraction."

"There are alley-cat-like women, too," he says, "who get themselves into compromising positions, but like the cat on the fence seem to land on their feet neat and cleanly."

Not all attractive women are feline types, however, muses Lamas. "There is Elizabeth Taylor who always reminds me of a beautiful black poodle. Either Williams who is like a dolphin, Marina Vlady who is exactly like a wild deer—light and wild. She walks like a deer too, in a floating movement."

"Mineral Type"
"Nor do all women remind me of animals," he adds "just special ones. The magnetic quality of animals makes human beings

SOPHIA has the walk of a tigress

MARILYN...not feline, but pure gold.

BRIGITTE...has the look of a panther.

And Anna Magnani is a volcano, a human dynamo that seems to spurt more energy than Mt. Vesuvius," he says.

Glamour girl Marilyn Monroe, saays Lamas, reminds him of gold. "She is so kind, generous and warm, that gold seems to be her mineral. She could not remind you of platinum, for instance. It is too cold and colorless."

Vegetable types? They are the girls who've gained weight "and so they remind me of potatoes," says Lamas.

"I like cats and can get along with them," he says, "but I am always aware that I must be very careful with them, and it is the same way with women. No man who is normal can live without them, but he must always beware of them."

Lawrence Names Press Secretaries

HARRISBURG (AP)—Gov. Lawrence appointed two state employees Wednesday to serve as the governor's temporary press secretaries.

Pete Wannbach, Justice Department, and John Fresca, Revenue Department, were named to take over the duties.

Lawrence still was looking for a permanent press secretary to succeed Debs Myers, a Leader appointee who will join the staff of the American Medical Assn. next week.

CHILD DROWNS

STATE COLLEGE (AP)—Betsy Ghaner, 8, drowned near her home at Fillmore Wednesday after she fell into Buffalo Run Creek.

The accident occurred about five miles northeast of here as the girl was on her way home from school.

ADVERTISE IN THE TIMES

'Y' PROGRAM GIVES MOTHER HER DAY OFF

OTTAWA (AP) — Freedom for the day. New ideas, new friends, no need to worry about the children.

Sound like a housewife's Utopia? Well, that's the way 39 young married women taking part in the Young Women's Christian Assn. "Ladies' Day Out" program describe their Thursday get-togethers.

Mrs. Grace Foley, part-time YWCA worker and mother of two school-age daughters who is the program's director, said she feels the five-hour "day out" is a tonic for mothers with small children. The YWCA offers two 10-week programs every fall and winter, and each program is filled to capacity.

Husbands Approve
"Husbands like it, too," said Mrs. Foley. "They say 'Ladies' Day Out' gives their wives something else to talk about... makes them more interesting to live with."

The program almost plans itself. Housewives make their suggestions for activities when they register. The program includes physical exercises, mental "gymnastics" through lectures and discussions and learning to do things such as handicrafts or bridge.

The children come too, but mother doesn't have to worry.

At 10:30 in the morning she deposits her toddlers and their lunches with Mrs. Peggy Maennling, a capable grandmother who supervises three baby sitters and 27 children from eight months to 5 years of age. There is a nominal charge for this service on top of the \$7.50 program fee.

Keep Fit

Each "day out" begins with a keep-fit hour — housewives must pass medical examinations first — and a half-hour swim for those who want it.

Lunch usually brings a guest speaker. This year's guests have covered such topics as how to keep a child occupied on rainy days, the menopause, citizenship, art appreciation and how to cook fish.

Mrs. Clare Steele, wife of a civil servant and mother of four children, says the program "gives me a feeling of freedom for the day."

Finland-born Mrs. Vera Bentley, wife of an airline pilot and mother to two, says it not only gives her a chance to get out—it gives her an opportunity to keep up with what goes on in the "out-

Emphasizes Names; Loses To A. Buzard

PHOENIX, Ariz. (AP) — William T. Brooks was running for re-election to the State Corporation Commission. He was worried about one rival in particular — William A. Brooks — because of the confusion caused by similar names.

To emphasize the difference in the middle initials, he passed out campaign cards featuring a large "T," on the other side was a little tea bag.

Came the primary — and Brooks lost. So did the other Brooks.

A. P. Buzard won in a close race.

Watch Enclosed In Cinder Block Runs

RICHMOND, Va. (AP)—A cinderblock lay in the drive leading to the loading platform of a brick company here. For six months heavily laden trucks pounded it. Finally it broke open and William Haden, an employee, found a watch inside. He wound it. It ran. He took it to a jeweler who sent it to the manufacturer. Back came two watches — one for Haden and one for the owner of the shock-resistant watch — if he can be found.

800 Tornado Photos Given To Okla. U.

NORMAN, Okla. (AP) — A collection of 800 photographs of tornadoes has been presented the University of Oklahoma library. They were collected by the late Snowden Dwight Flora, U.S. Weather Bureau observer in Kansas who was a nationally recognized authority on tornadoes.

The collection of pictures, along with other weather data, is the largest in the country.

Fugitive Hids From Police Under Docks

NORFOLK, Va. (AP)—A man being chased by police after he abandoned a stolen car tripped over a coil of rope on a dock and went into the water of the Elizabeth river. Police enlisted the help of the Coast Guard, Shore Patrol and Fire Department. Search by land and sea failed to disclose the fugitive.

He was arrested the next day when a taxi driver reported a dripping wet man in the bus station. He had clung to the underside of the dock all night.

side world." "It really gives you a lift," she says. "I think it takes an effort to keep informed."

In 1758, the province of New Jersey established what is believed to be the first Indian reservation in America—a 3,284-acre tract set aside in Burlington County for the Lenni Lenape tribe.
